Marks of Individuality

Individuality — That's what Montclair High School was all about in 1986. At M.H.S. people were individual. They were themselves, and they each had their own special trademark. Somewhere, somehow the Cavaliers carried along their trademarks; whether it was with clothing, personality, appearance or attitudes. It was not only the people that had trademarks, but the M.H.S campus had its own special trademarks as well. Various sights around surroundings as Montclair High. The most well known were the clock, the pit, and even the disliked crowded parking lot. If you think about it, what or, who doesn't have a trademark? McDonald's has the Golden Arches, Nike the Swoosh stripes, Levi's name is a trademark in itself, 7-Up and its "Crisp and clean, no caffeine" slogan trademark, and M.H.S. had the Cavalier mascot.

In order to induce greater school spirit, our traditional Cavalier became modernized, and so we adopted the fearless cowboy-turned-Cavalier, Yosemite Sam. Yosemite easily became identified as the new Cavalier. This short, stubby, tough guy was seen all over campus as students and faculty alike sported sweatshirts, buttons, rally tags and even backpacks bearing the newest Cavalier.

Although Cavs were known for their individualism, unity was also a prominent trait present at M.H.S. Both the students and faculty were known for coming together to form one spirited and united group. Individuality, Unity, and Spirit — These were the trademarks known to and maintained by all Cavaliers.

Poodle Skirts to Punk

Throughout the decades, teenagers have always been known to express themselves by the clothes they wear, the cars they drive, and the music they listen to. The decade of the 50's had a style of its own. From the rock and roll beat of **Elvis,** to the swinging tunes of the Jitterbug, a new craze had begun. The girls, wearing their poodle skirts and ponytails, and the guys, wearing rolled up Levis and T-Shirts danced to the beats and dreamed of the day when they would have their own "hot rod."

The decade of the 60's brought still faster paced music, with groups such as **the Beatles** and **the Beach Boys,** filling the airwaves and dance floors, and anyone who was "with it" had to have a "groovy" set of "wheels." The girls' skirts got shorter and the guys' hair got longer and freedom of expression was the hot topic.

The 70's introduced another style of music. **The Bee Gees** and **Donna Summer** controlled the music scene with their disco sounds, while **John Travolta** gave people a reason to "boogie" in "Saturday Night Fever." Bell bottoms, polyester, and silk skirts were the stylish dress, as well as, tie-dyed shirts and platform shoes. Eventually, the disco era died, and it was time for another scene.

The 80's brought video to the music scene, making the look of a group just as important as their music. New wave made the transition, and groups like **Tears for Fears** and **Depeche Mode** could be heard on radios everywhere. Karmen Ghias, Volkswagen Bugs, and Mini-trucks filled the streets and parking lots. Fashion exploded in the 80's, with not only stylish clothes, but also the innovative creations of a select few, largely contributed by the Punk scene.

While the priorities of teenagers have stayed the same, the teens themselves have found new ways of expressing them, and only time will tell what is in store for the teens in the 1990's and beyond.

An Image to Behold

Webster's definition: Cavalier (Kav'e-ler) n. 1. an armed horseman: knight. 2. a gallant or courteous gentleman. abb. Cav.

When asked what it meant to be a Cavalier at M.H.S., many students and faculty alike gave several different versions and opinions, but the one opinion we all had in common was the pride we shared in our school, ourselves, and each other. This pride was shown by each and everyone of the students at M.H.S. through our own individual attributes during the course of our athletic, academic, and social growth. Together we not only offered our encouragement in the classroom by helping our friends with class and homework, but we also offered our loyalty out on the sport field by participating in a sport or up in the stands cheering.

If it wasn't the students offering their support, it was one of the many encouraging faculty members always willing to share their knowledge and time, even if it wasn't during class time or pertaining to an academic subject. We were all trademarks of a true Cavalier and we all strived to uphold that image during our years at M.H.S. in hopes of setting an example that could be used to benefit the next generation of Cavaliers.

This page:
1. By the time most students reach their Senior year they have developed a flare for excitement and spirit as shown by the class of '86.
2. Representing the traditional Cavalier is our well known mascot **Kristen Myers.**

Opposite page:
1. **Tim Martin** and **Laura Shipley** are proud to represent just a few of the extra-curricular activities provided at M.H.S.
2. A faculty member in need is a faculty member indeed, and **Mr. Radcliff** is one of the many needed by M.H.S.

Spirit? You Bet!

Vivacity and enthusiasm were characteristic traits set by the spirited Cavaliers. With inspiration and goals, the energetic Cavs pushed their way to a victorious year. Their attitudes were like no other. The mighty Cavaliers demonstrated their potential by accomplishing anything and putting forth the true meaning of spirit.

Each individual had their own unique style of demonstrating that anything can be accomplished, like the enthusiastic football player striving for that winning touchdown, or pep squad putting forth that extra special effort. Then there were the clubs that united the Cavaliers. One club that showed warmth and self-achievement was Key Club. This was just one of the many clubs that showed the reward in spirit not only throughout Montclair High, but throughout the community. Cavaliers glow with spirit in and out of the school, which makes all Cavaliers show the pride of which Montclair will always be a symnbol of.

The students projected an image of individuality, spirited trademarks that made them stand out in the crowd, yet still represent their unique individual pride. This, combined with distinct determination and willpower made each Cavalier proud to say that he definitely had spirit. Without a doubt, Montclair Cavaliers' spirit knew no limits.

New Science Invades M.H.S.

The technology of today has engulfed every part of our society. It played a very important role in everyone's life. What used to be a marvel five or ten years ago has become a way of life. Our society advanced in the fields of medicine and science which included everything from the artificial heart to the space shuttle. In the entertainment field, which had caught the eye and attention of many Cavaliers at M.H.S., there was a great variety of home entertainment equipment that was sold nationwide. To mention a few of these electronic toys the video cassette recorder, video camera, compact disc and even the satellite dish have become common in the marketplace. These items were often distinguished by the brand name trademarks of R.C.A., Sony, Panasonic and many others. Equipment such as this had made a tremendous change in not only the lives of Cavaliers but in everyone elses around them.

Cavaliers were lucky to live in a time when technology made life a little bit easier and more enjoyable. When "going out" for many Cavaliers became a little expensive for their budgets, some Cavs experienced the V.C.R. date. This date proved to be more economical and just as enjoyable as the movie theatres. Cavaliers could have fun just sitting home and maybe watching the V.C.R. or listening to the crisp new sounds of the compact disc player. Another benefit would be to catch up on the latest music trends by watching videos on M.T.V.. Video cameras helped us to create our own television shows which may have included a special event or a family affair.

Cavaliers were able to watch local television shows and series programs from all over the United States. We were brought up in an advanced society that constantly changed for the better.

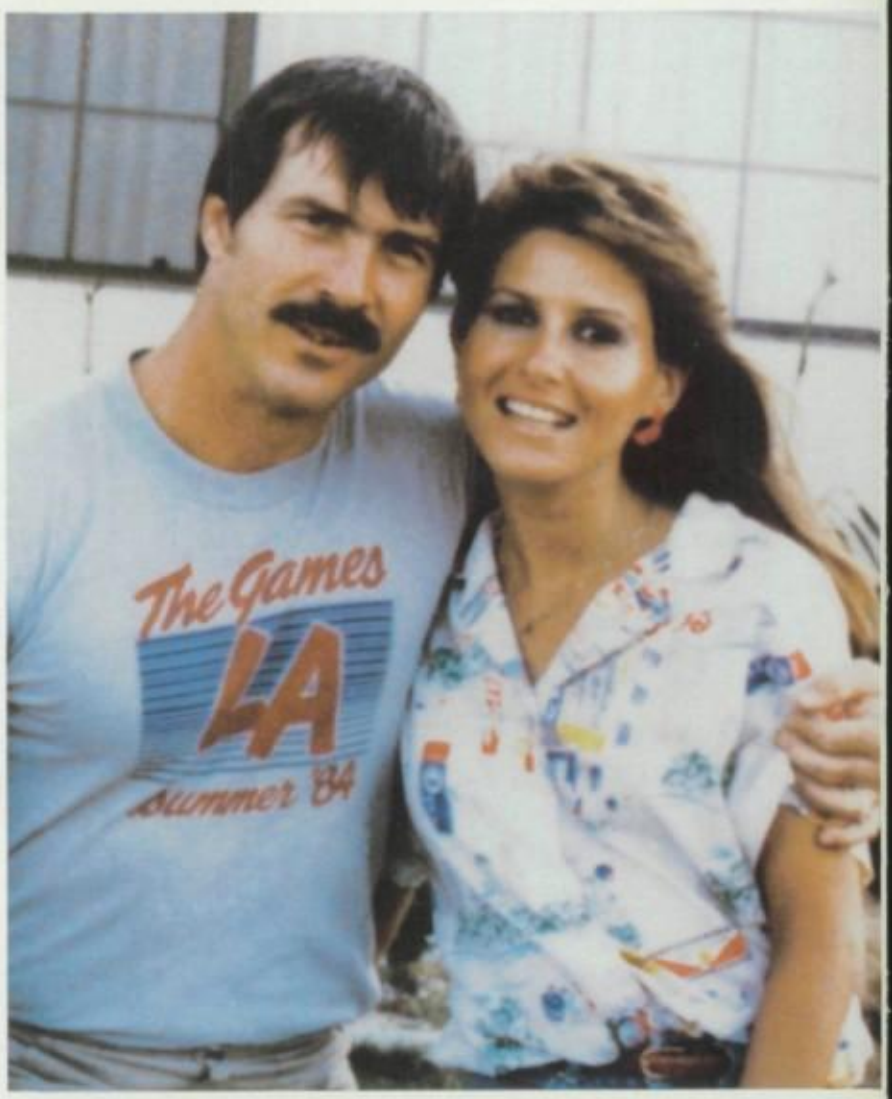
Forever a Cavalier

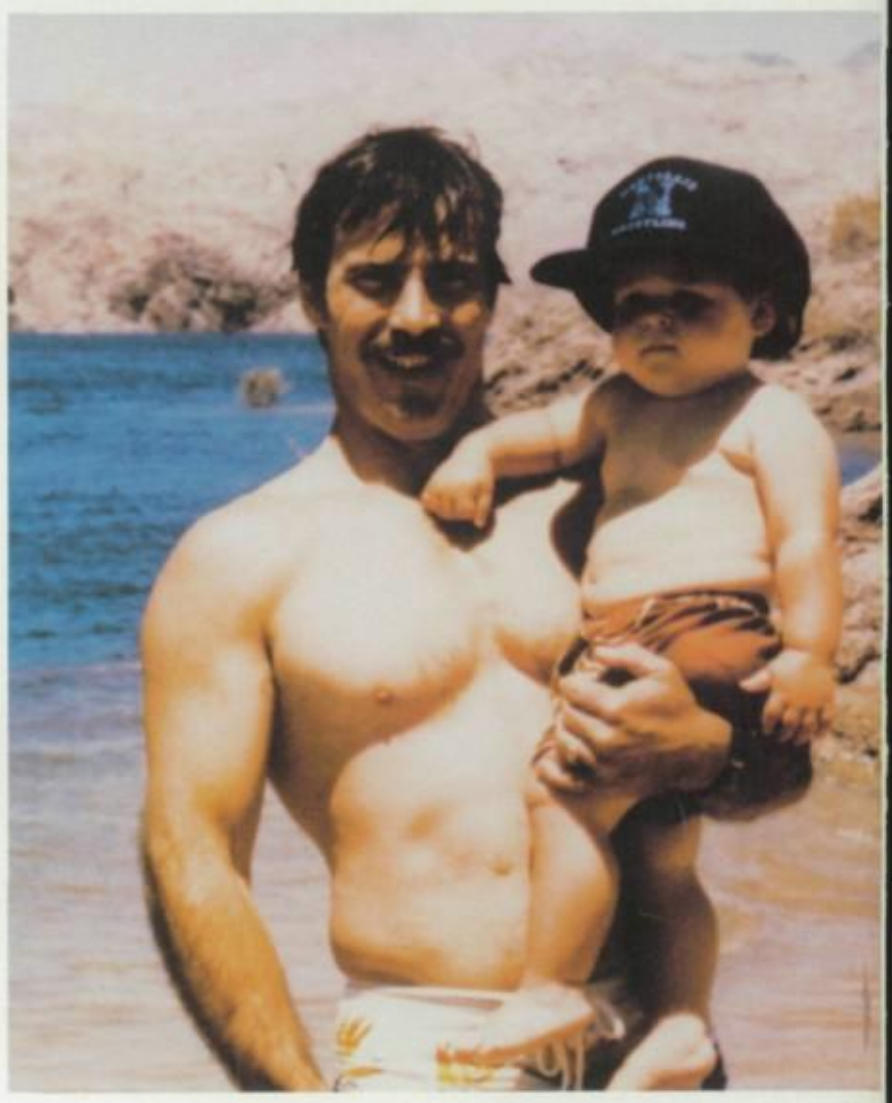
"He's a little guy with a great big heart and an even bigger grin." This quote from the 1963 **Glaive** still holds true. One of the graduates of the class of '63, the senior class president, to be exact. was **Mr. Bob Bellot.** Not only was he the senior class president but also in the first graduating class of Montclair High School. It is the man we are honoring once more, in the 1986 **Glaive.**

Having taught for 15 years here at MHS, **Mr. Bellot** is widely known and admired by students, staff members, and faculty alike. His involvements here include football and coaching wrestling, and a new history teacher as of 1985. Through outstanding effort **Mr. Bellot** has given incentive and encouragement to many students. His spontaneous and energetic attitude often makes learning fun and interesting. One very obvious fact about **Mr. Bellot** is his concern in the growth of his students.

Caught previous to any knowledge of the dedication decision, **Mr. Bellot** was asked this question by the **Glaive** staff. "What do you like best about working with your students at Montclair High School?" To this he answered, "The thing that I like about Montclair students is that they have good hearts and a good sense of humor. This gives them tremendous growth potential. Even though I'm involved with the academics of the school experience, I am keenly concerned with the intangibles of that experience. I would like to think that I have played some small part in the strengthening of character, the shaping of values and the improvement of self-esteem amongst our students. It seems that Montclair students in particular are more honest, more receptive, and more gratified by the interaction they share with most teachers. It makes my job easier, and very rewarding to participate in and be a witness to this growth process and to know that after four years at this institution these students will leave capable and confident; mature young adults; and in some cases, lasting friends."

In respect and gratitude for numerous contributions, the 1986 **Glaive** is dedicated to a man who has left many a mark on his students, **Mr. Bob Bellot.**





Mr. Bellot is seen here in various pictures with his wife Gina and son Caleb.

DARCY-

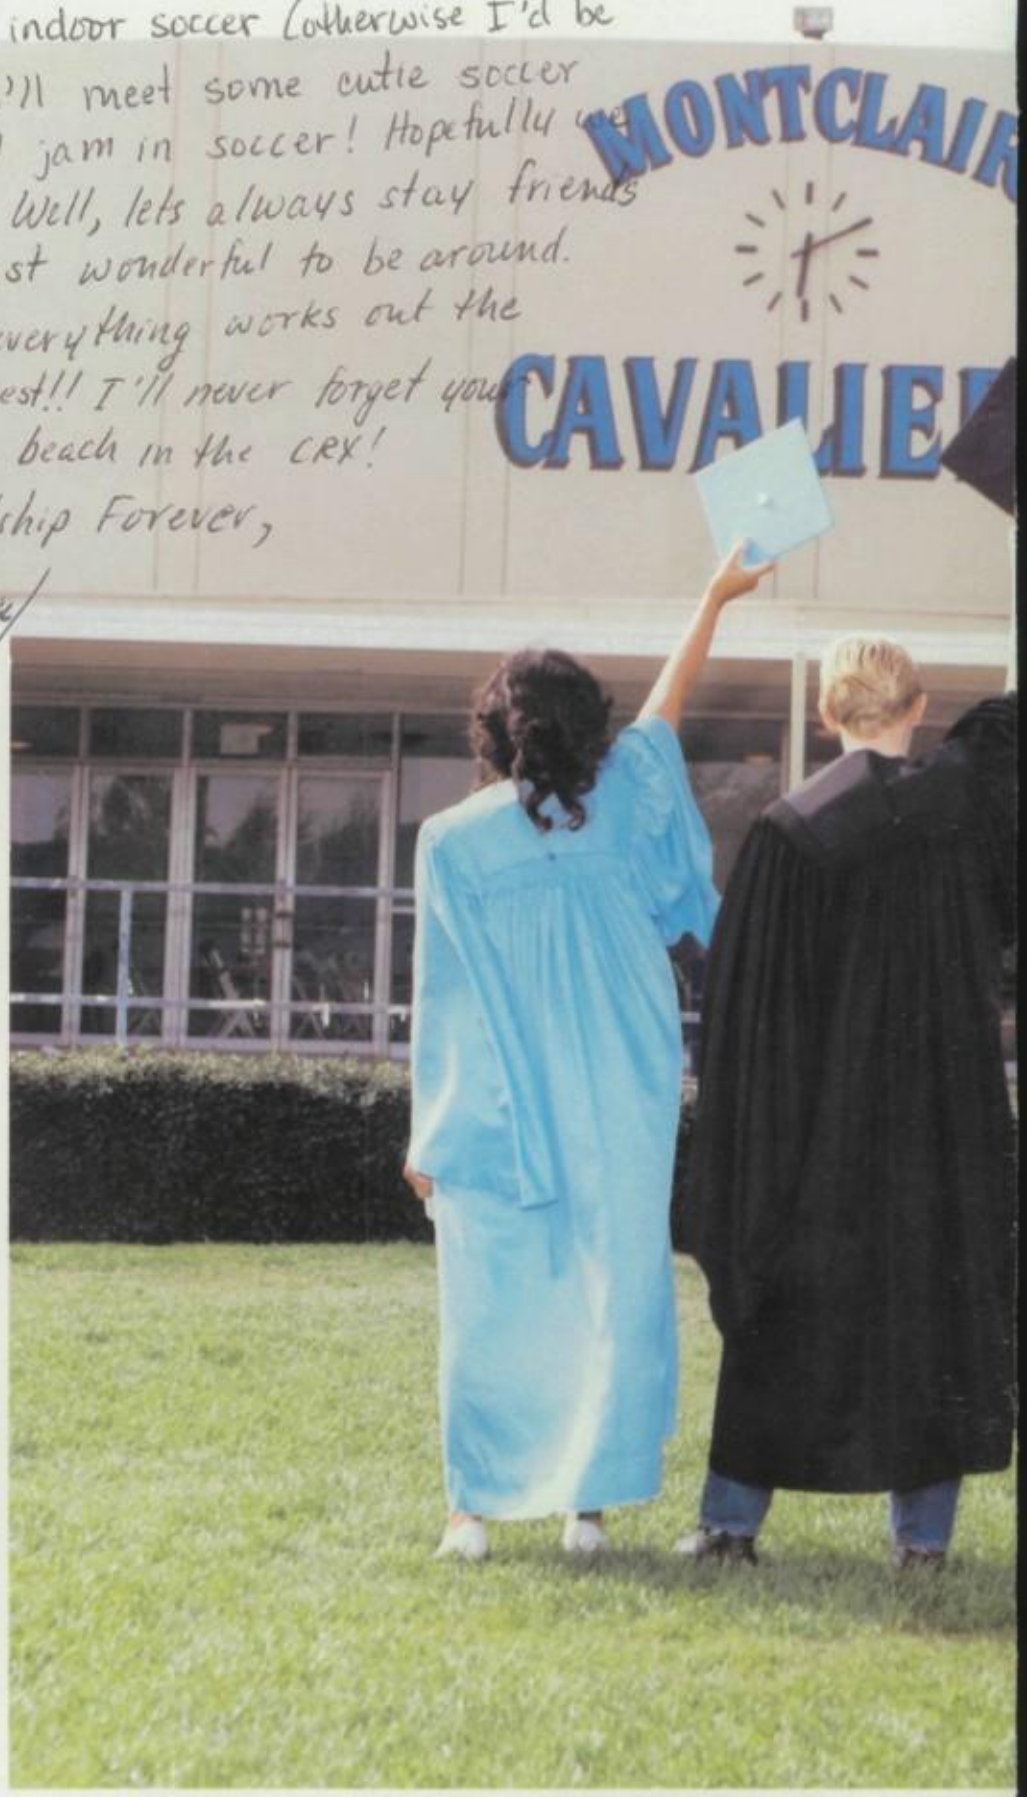
I remember last year when we were only "soccer buds" and now look at us. Haven't things changed? I sure am glad they have though because you are a great friend. We're closer than we've ever been and I think its great! Thanx for always being there for me and for making me laugh. You're a cutie. Remember all the fun times we've had going out. Especially at Jody's when we went running upstairs and suddenly stopped. ooops! Ha ha! We got to do lots together this summer and w/ Jody, Lisa, and Christen. Like going to the beach after causing problems in Summer school. I finally will have you in one of my classes.

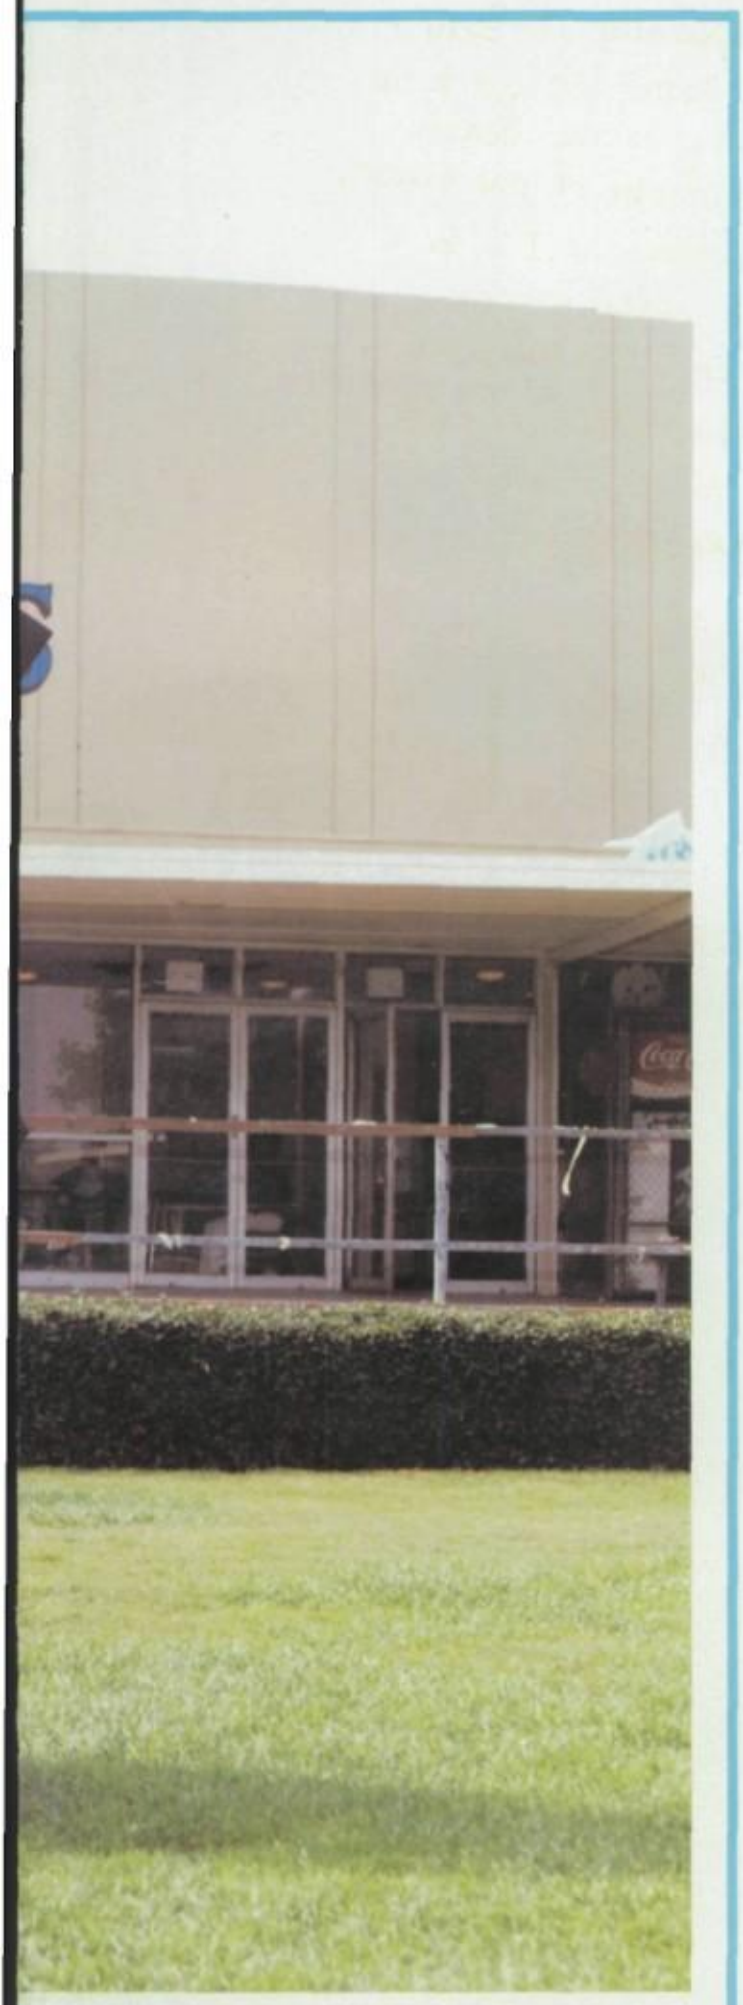
I'm glad that we are on the same team for indoor soccer (otherwise I'd be pushing you into the walls!) Just Kidding. Maybe we'll meet some cutie soccer player guys out there. Hope so. Next year we'll jam in soccer! Hopefully we will get farther in C.I.F. if we have the chance. Well, lets always stay friends and get even closer cuz I think you are just wonderful to be around. Don't ever lose your super personality. I hope everything works out the way you want it to. Remember - You deserve the best!! I'll never forget your happy face! KIT 982-9282 and we'll go to the beach in the CRX!

I ♥ SOCCER!

Lots of Love and Friendship Forever,

Stacy





SENIORS

By their final year of high school the Seniors had come to be known as the symbols of the school. The Seniors no longer followed the trends, they set them and they all had certain trademarks with which they had become associated. The Senior Cavaliers of Montclair High were most noted for their ability to know who they were and what they stood for. They were the leaders — present and future.

The life of a Senior was always seen as the "glamorous life" by the underclassmen. First dibs for parking permits, owning a car, being an adult, and even the respect of more teachers were just a few of the privileges the Seniors were associated with. But unfortunately for many Seniors, life was far from "glamorous." No longer was school an exciting place to be as it was regarded as the "same old thing" and soon "senioritis" was caught. Civics grades became nightmares as the second semester came to an end and the reality of being a part of graduation became a question in all Seniors' eyes.

Of all the trademarks associated with being a Senior, graduation was the most common. With graduating came the feeling of finally being respected as an adult and not a "kid." Although graduation from high school was one of the highlights of the Seniors education, it was just the beginning. Decisions made after high school ranged from college, to the military and even joining the work force. No matter what decision was made by the class of '86, they all left behind their very distinctive trademarks.

Symbols From Afar

Norway, Spain, and Sweden — These three European countries were represented by three special students that joined the Cavaliers for their Senior year. Annbritt Walderhaug an exchange student represented Sweden through A.S.S.E., or American-Scandinavian Student Exchange, Jesus Toledano an EF exchange student represented his country of Spain, and Anna Berset, a private citizen on a student visa represented Norway. These three foreign exchange students made their surroundings very unforeign by quickly adapting to school life at Montclair. With friendly smiles and warm personalities, these students were readily accepted as Cavaliers. Anne Berset joined the Student Council and participated on the track team, while Annbritt also joined the Student Council. Jesus was very interested in photography and was very active academically. They brought their countries trademarks by showing us their clothing, likes-dislikes, personalities, and even their language and culture. We all learned a little from these three and in turn they learned the Cavalier trademarks, customs, and traditions.

Strictly Friends

How many people really have close friends, someone to call a "best friend?" These "best friends" help to make high school better. What would you do without your best friend to gossip with, cry to and tell your deepest secrets? Almost everyone knows the feeling of having a best friend (or the pain of losing one), but not many know the special kind of friendship that can form between a guy and a girl.

A purely platonic relationship between two of the opposite gender is hard to find, but when it is found it can be compared to no other. This kind of relationship can help both the guy and the girl to better understand the opposite sex. However, there are problems in defending the nature of the relationship. The fact that they are just strictly friends must constantly be remembered. In a boy/girl friendship there is always that special tie which very often lasts forever, if not longer.

Senior Cavaliers Scratch an Itch

The California State Lottery officially started Oct. 3, 1985 at 12:30 p.m. The people of California were anxious and excited. Not since the gold rush of 1849, had there been such a bonanza so close at hand. Californians had long been wanting to scratch an itch.

Some of our more compulsive Senior Cavaliers (18 yrs. and over) had an opportunity to take part in "striking it rich" by competing for large cash prizes. A $1.00 ticket could become an instant winner of $10,000. Some lucky $100.00 winners had a chance to satisfy their gambling mania by spinning California's "wheel of fortune" and win up to $3 million.

Young Montclair Cavs, not wanting to be left out of the action, longingly awaited their 18th birthdays. Nervously clutching their bucks, they hung out at 7-Elevens, local markets and anywhere else the "magic game of chance" was being played. Many were convinced fortune could be just around the corner or a "scratch" away.

Special Attractions

When developing special relationships there are many characteristics that all Cavaliers look for in each other and through a survey taken from one hundred students the following thoughts were revealed in these quotes:

"Each Cav is different. We all learn from each other and have fun doing it!" **Tonya Tabakman**

"Cavs like the fact that they can be accepted by their classmates no matter how different, like me, that they are." **Chris Blazeck**

"Cavs like the friendliness that everyone seems to express to each other." **Karimeh Trad**

"I like the foxy females at school. They are the cutest in the district and aren't really shy as most girls are and that makes them the friendliest and smartest girls around." **Ralph Garcia**

"Eyes, definitely eyes!" **Buffy Maiorano**

"The guys Cavs are very friendly. They really seem to respect peoples feelings even if the feelings aren't mutual." **Terri Hurst**

Faculty of the Month

Following a two-year tradition M.H.S. faculty members were again recognized for their outstanding leadership in and out of our school. The awards were usually hand delivered to the "Faculty members of the Month" during rallies. The dedication and involvement in the school were taken into consideration as the student leaders decided upon the recipients.

FACULTY

Montclair faculty members have often been caught day-dreaming. Did you ever wonder what they were dreaming about? Perhaps, it was about their high school days, "way back when." In those days it was "hanging out" at school or the local pizza parlor, soda shop or "in" place to be for each generation.

Maybe, when finding affectionate Cavalier couples walking the hallways, they experienced a flashback to their own high school sweetheart. Some of our teachers probably became amused with the sight of students today wearing fads and fashions from the past.

Did you ever wonder too, why some faculty members might want to teach high school? Maybe, because they loved high school so much they never wanted to leave it, or perhaps, sometimes in the past they dedicated themselves to teaching young people. They saw a need to raise education standards as high today as they were when they, too, were teenagers.

Whatever the answer is, the MHS faculty has maintained the Cavalier trademarks of high standards and quality teaching. This has not been a daydream but a reality.

Caring, Cash, and Candy

"Selling snacks and candy are all quite nice, but they are not the only things that keep the Student Store going," says **Mrs. Simpson,** the heart of the Student Store. She was entirely responsible for all the money coming into and going out of the school. Any money spent or earned was cleared through the student store. This included accounts for the Associated Student Body and all other clubs and organizations.

Mrs. Simpson also pointed out that it was very important for the student body to know that the student store is for their benefit. All the proceeds from the candy, soda and extras go directly to the Cavaliers. Mrs. Simpson said she really enjoys her job at Montclair High and plans to stay here for quite some time. We enjoy her, too! When asked what her favorite candy bar was, Mrs. Simpson simply smiled, laughed, and said politely, "Snickers."

Success Through Caring

Montclair High School has been very honored to have such a prestigious and worthwhile faculty member as **Karen Clifton.** Although some Cavaliers had not been aware of her existence, **Ms. Clifton's** work was greatly respected by those who have known her. **Karen Clifton** was like no other at Montclair, what she has done required not only teaching ability but a kind, patient personality as well. **Ms. Clifton** taught Special Ed. students and has achieved remarkable success with them. When asked what she liked best about working with her pupils, she quoted, "The satisfaction of guiding and watching students bloom to their fullest potential as individuals."

Ms. Clifton's extracurricular activities included horseback riding, skiing, sewing, — and believe it or not surfing. With all these other interests **Ms. Clifton** knew her top priority, she felt her "kids" were the greatest and cared for them wholeheartedly.

Thank you Ms. Clifton. You're the Greatest.

For anyone who didn't experience the pleasure of having **Dr. Riner** as a teacher, they lost that chance after this year. Having been at M.H.S. for a full 25 years, **Dr. Riner** has decided to lay down his life-long teaching career to pursue his favorite hobbies, which are: traveling, private consulting and operating a small business.

We regret the loss of such a fine teacher, but we hope his future retirement years will be both enjoyable, and profitable. We will miss you!

Darcy,

Well sweetie, it's finally almost over. Thank goodness we think that we have only fought once and that was such a long time ago. I'm glad that we haven't fought since then. That sucks about everything that has gone on this whole year. I hope that you get close to Jesse cause you deserve him if anyone does. Thanx for sticking in there with Rachelle and I. You've been a good friend to me and I hope we remain friends forever. Have a great summer and we better keep in touch.

JUNIORS

Casual was probably a good word to describe the class of '87. Being a Junior meant finally classifying yourself as an upperclassman. No longer subjected to degrading underclassmen life, Juniors found that with their title came the ability to feel comfortable at school and even daring. It was not an uncommon sight to see a crazy Junior at a rally or class competition.

Certain privileges only wished for in previous years were now offered to Juniors. Perhaps the most important being Prom. Now as upperclassmen, they were cordially invited to the memorable event. For the athletic Cavs the chance to play on Varsity teams now became a reality. Life was not all fun and games however, because with this seniority also came harder classes, more homework and newfound responsibilities.

Outside of M.H.S. more advantages became available to the sixteen and seventeen year old Cavaliers. Most of the class of '87 enjoyed getting a job, the priviledge of being a driver and not a passenger, and even being able to show their I.D. at an infamous "R" rated movie!

For many Juniors though, their third year was a time for dreaming. Dreaming of the day they become Seniors, looking forward to being eighteen and even that far off goal, graduation. Although most students were anxious to move on, some found dreams of the future frightening. Juniors were basically characterized with the trademark as being in the middle, not yet finished but far from the start.

A Car Is Not a Toy

Many M.H.S. students have been greatly concerned with the subject of drinking and driving. One factor which made Cavaliers aware of this national problem was a variety of organizations such as S.A.D.D.; Students Against Drunk Driving, and M.A.D.D.; Mothers Against Drunk Driving. These organizations gave speeches from school to school about the dangers of driving drunk and the fatal statistics. M.H.S. did their part by giving the students Safe ride cards which enabled the students to call for a taxi service when they were intoxicated. Losing a fellow student is a terrible way to come to the reality of the dangers of drinking and driving. In all, the Montclair Cavaliers surely did their part to keep from learning that lesson.

Wheeling Onward

For teenagers, there are several experiences which are held to be highly important. One of these valuable stepping stones to adulthood is the acquirement of a car. This particular accomplishment is regarding as a trademark of independence for young people. At Montclair High, the average student gets a car during his or her sophomore year. Along with this transportation package comes several responsibilities. To begin with, the student may have a car and, or insurance payments to worry. Another requirement for driving is a driver's license. In the Montclair High parking lot, a parking permit is also neccessary.

Even with these factors taken into account, the widespread desire for transportation was still evident.

Get That Job!

At the beginning of the school year the Montclair Plaza opened many new doors to students who were looking for jobs, although, not everyone had the opportunity to go out and get that certain one. For those privileged enough to have a job, making the grades became even harder than anticipated. Working a part time job had its disadvantages. For instance, keeping up with homework assignments and falling grades, made school tougher and gave the impression to Mom & Dad that academics took lower priority. There was no need for despair though. There were many other advantages. If students were lucky enough to keep grades up, Mom and Dad didn't seem to mind. The money came in handy, too, for buying clothes, being able to afford to PARTY, and just plain having FUN!

SOPHOMORES

Freshman nightmares were finally over. A Sophomore at last. No more being pushed around or being the subject for everyone else's jokes. And best of all, no more being at the bottom of the list. Upperclassman life was not too far ahead. To many, being a Sophomore meant buying a class ring and possibly the opportunity of being privileged with a part-time job. For others it meant getting a driving permit, and for those lucky few who got their license, it meant hauling all their friends around in Mommy and Daddy's car.

Academically the class of '88 still were underclassmen, and it showed. Sophomores were seen lugging around their Biology and Health, Driver's Ed. and Algebra textbooks while trying to juggle their P.E. clothes, on their way to earning 230 credits towards graduation.

After having one year under their belts, the Sophomores easily found their way around the M.H.S. campus. Soon they knew exactly where the Sophomore hangouts were and they quickly identified all the "hot spots."

At rallies, a trademark of being shy was definitely not seen by the class of '88. They even out roared the rowdy Seniors winning many yell competitions. "88, 88, eighty-eighty-eighty-eighty-88."

The Rings of Memory

Taking World History, Biology, and Driver's Ed. was the typical life of a sophomore at Montclair High. What could a 10th grade Cavalier actually expect to jazz life up? Their class rings, of course. These rings belonged to them and gave them an identity with their school. That gold band and that unique jewel represented the "class of '88's" individuality. It carried the school emblem which proclaimed that the spirited sophomores were all fellow Cavaliers.

The excitement grew intense as the arrival of the rings marked a new chapter in the crazy Cav's lives, a chapter that will never be erased. The laughs and the good times, they could recall these for the rest of their lives, were reflected in that tiny ring. This is strong in the hearts and souls of all of us.

Making It Legal

Getting a license was a terrifying experience for any sophomore who wished to have the freedom to go somewhere without Mom or Dad. After six months of "do this" and "don't do that" in the thrilling Driver's Education class, sophomores were ready to take on the D.M.V.

When doomsday approached students became tense and excited. While making their way through the maze at the D.M.V., they became restless and got sweaty palms. After going through the torture of the terrifying driving test, they were asked to smile in front of a camera to show proof of passing "the test."

FRESHMEN

Better off dead, worthless, baby and even nerd; the list could go on and on. Many words are used to characterize the trademarks of Freshmen. But what are Freshmen? They're simply Seniors waiting to grow up. One day these same Freshmen will reciprocate the labels put on them. Freshmen are criticized for everything they do. Ride a bike to school — only a Freshman would do such a thing! Drop your books getting off the bus — only such a task could be completed by a Freshman. Someone fell at the rally? Must be a Freshman.

The transition from Junior High to High School not only meant harder classes and a larger campus, but also many new faces to meet. After getting acquainted with M.H.S., many Freshmen found that the horror stories of hazing, "Big Bad Seniors," and teachers like drill instructors to be untrue. M.H.S. was not a horror story but a fun and friendly place.

Being a member of the class of '89 meant putting up with quite a bit of abuse. Not only being the brunt of many jokes, but also boo's at rallies and put downs from other Cavaliers. At first not sure of their abilities, the class of '89 was somewhat reserved at rallies and class competitions. By the end of the year though, pride and spirit was a trademark well-known to them.

Little did they know it but the tenth, eleventh, and twelfth graders had it quite easy when it came to graduation requirements. If only they knew how much the system had cracked down on the class of '89, requiring them to have 240 credits to graduate, they might not have had so many complaints towards our educational system. The freshman class found themselves having to excel in English, Math, Science, and fine arts due to previous years of illiterate high schoolers receiving diplomas.

Along with the adjustments of Junior High to High School, fitting in, and making new friends came the worries and woes of achieving academically. Knowing that they had a supportive faculty and many tutoring programs, such as M.A.C.C. and M.O.C.C., they found the pressures of school work a little more bearable.

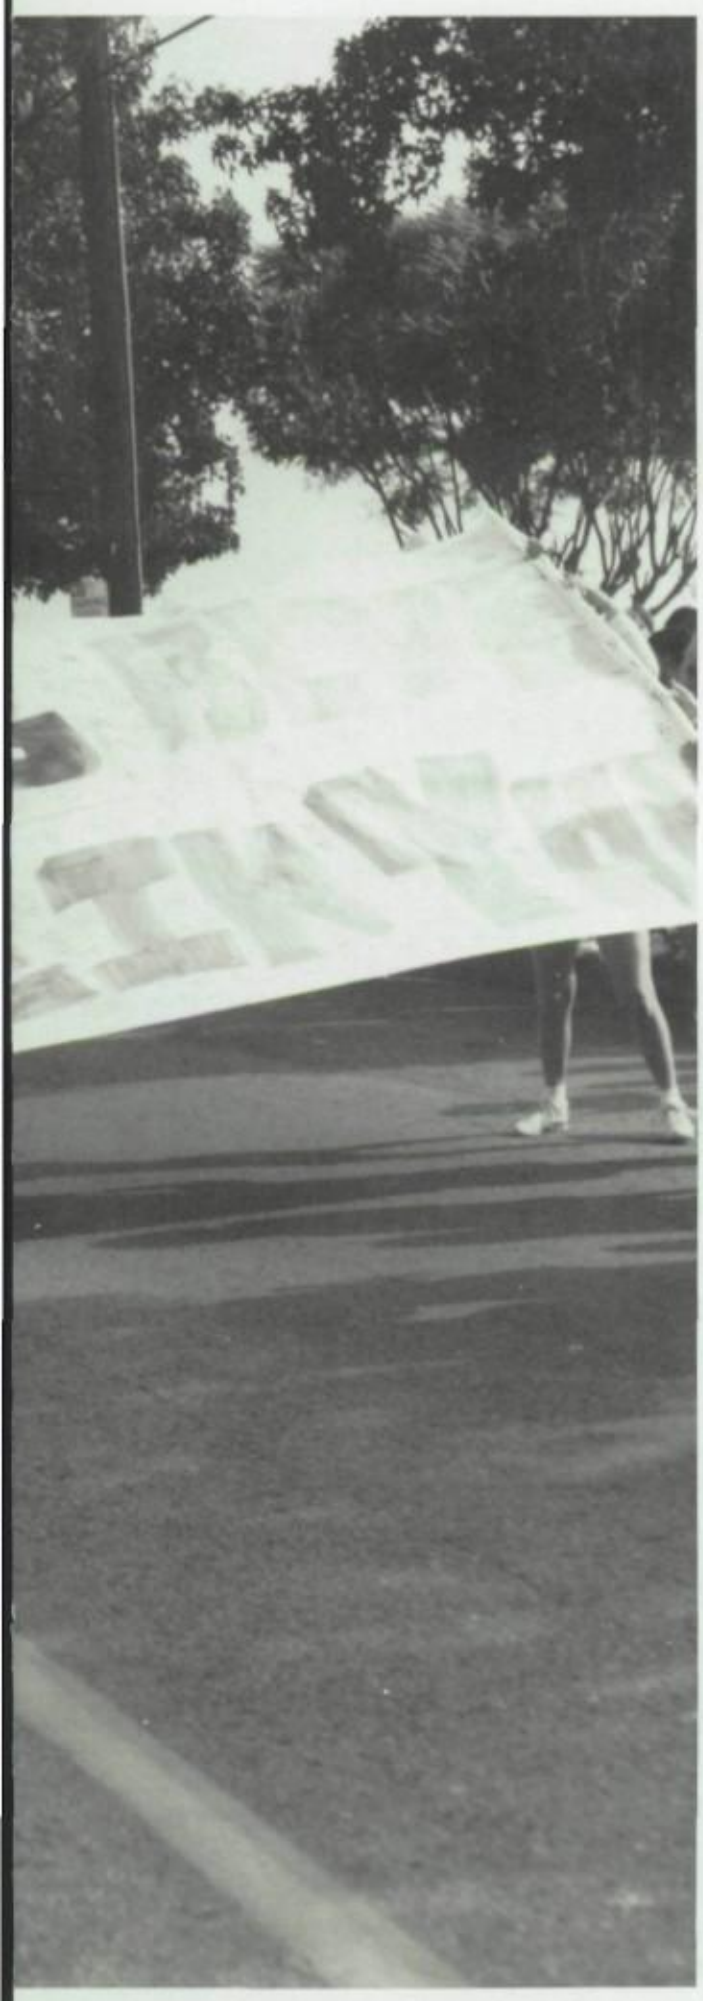
GO CAVS!



SPORTS

There were many traits which classified sports at Montclair High, but perhaps the most visible was sportsmanship. Fairplay, pride and friendliness could be seen in every area of competition at Montclair. Not only did the coaches and athletes display the qualities needed to stand up to the image of a true Cavalier, but fans of the teams did as well.

One good push for the various teams was the support from the school. Posters decorated the campus announcing games and also congratulating and encouraging the teams. After every win, the victory flag flew over the Cavaliers in the quad area. M.H.S. slowly found the pride of having strong competition teams. This new found success was made evident by the C.I.F. and Hacienda League banners which hung in the gym.

In Hacienda League play, the Cavaliers were starting to prove not only to themselves, but to their opponents as well that they were "coming out." No longer were the Cavs considered an "easy win." Many victories over long-time rivals were seen as the Montclair Cavaliers' trademark of unity and pride came through.

A Cav Trademark: Better Late Than Never

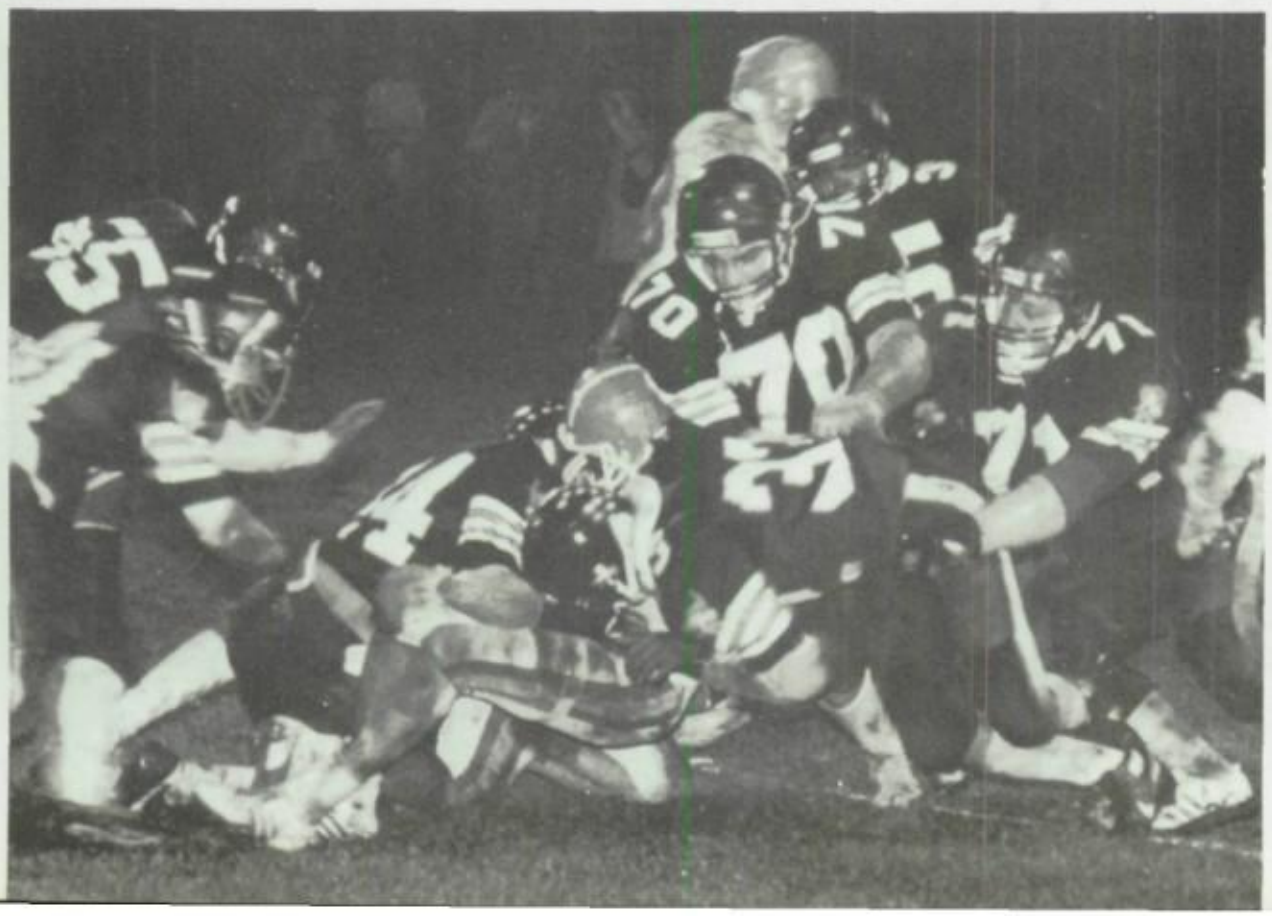
3. **Rob Adams** fights for more yardage while in the grasp of a tackler.



After going 0-10 the previous season due to the use of an ineligible player, the Varsity football team entered the 1985 season with nothing left to lose. After going 0-3-1 in their first four games and being outscored by their opponents 0 to 93, what had been expected to be a season to remember, was quickly turning into one to be forgotten.

With the installation of a new offensive formation, a review of the fundamentals, weeks of hard practice, and not to mention the superb coaching skills of Head **Coach Bill Patrick** and his staff, the Cavs quickly turned their season around. In a brilliant coaching move, Patrick installed a Wishbone offense to enhance the team's strong running game, and since then, the Cavs went on to win their next 6 games and end the season with an overall record of 6-3-1. Along the way they compiled a league record of 6-1, the best league record since 1966.

Their late recovery paid off as they captured second place in the Hacienda League and earned a berth in the C.I.F. Championship Play-offs. The 9-7 victory over Brawley in the first round extended the winning streak to 7 games, but it was soon brought to a bitter end with a 33-14 loss to Charter Oak.

Team unity played a big role in the team's turnaround, and even though the team consisted of some pretty elite groups such as the Jungle and the Force Five, the team's faith in these groups and themselves proved to be the biggest form of unity.

1. **Craig Gains** and **Anthony Ortega** celebrate after another Cavalier touchdown.
2. **Monsel Fields** puts the Cavs running game into high gear.
3. **Head Coach Bill Patrick** decides on the next play.
4. **Rigo Guitierrez** records yet another sack.
5. Montclair's swarming defense smothers an opposing runner.

Our Loss Is Our Gain

Everyone knows that a junior varsity team is a stepping stone on the way to being a varsity player. Players are prepared to play with the big boys on the varsity level. When a key player is moved to varsity in midseason, it makes it hard for a J.V. team to have a successful season. The J.V. football team met with this problem early on in their season. After just two games into the season, their starting quarterback was moved up to varsity, leaving them with a hole at their most important position. They did not give up as they brought up a freshman from the frosh team and went on to post a record of 5-4-1.

With players like the J.V. team, it is no wonder Montclair's football program has been so successful. With the dedication and the will to succeed that these young men exhibited, they will no doubt make next year's varsity team a successful one.

1. **Coach Joe Almerez** thinks about who to put in next.
2. **James Keyes** tries to elude an opposing tackler.
3. **James Williamson** kicks for 3 more points.
4. **Danny Vasquez** brings down an opposing runner.

Front row: **Nathan Johnson, Michael Poinson, Omar Gains, Jude Garcia, Manuel Ramirez, Arnulfo Romo, Celio Rodriguez, Mark Gramata.** Middle row: **Efrin Candias, Robert Wightman, Curtis Zinnerman, John Vanus, James Keyes, David Brown, Joe Granados, Nathaniel Montgomery.** Back row: **Asst. Coach Joe Almerez, JOhn Bellaver, Monsel Fields, Scott Atkins, Larry Clark, Steve Cerda, Jams Williamson, Danny Vasquez, Head Coach Ed Jaramillo.**

A Frosh Start

Frosh Football was very different from the teams of past years, for although they were small in size, they were big in heart. Captains **Jeff Crockett, Hector Avila, Steve Carl, Darren Mooney,** and the rest of this young team fought hard all season to gain 3rd place in Hacienda League with an overall record of 5 wins and 5 losses. Although they started off slowly, with a few heartbreaking losses late in the season, including one to undefeated Chino by a narrow 5 point margin, the team still put out a winning effort in all their games. With their greatest strengths lying in the areas of quarterback, running back, and defensive linemen, this year's team has prepared some valuable players for the varsity level.

1. Determined Freshmen fight for the ball.
3. **Jeff Crockett** eyes his receiver as he sets up to fire a pass.
4. Behind good blocking, **Steve Adams** gains valuable yardage.

First row: **Steve Magill, John Sanchez, Randall Zimmerman, Chris Greenlee, Jason Lower, Rich Filburn, Steve Adams, Tyrone Swan.** Second row: **Danny Camacho, Robert Perez, Alex Reid, Matt Vredenberg, John Pulido, Robert Jones, Bill Voegeli, Rafael Outley, Mike Johnson.** Third row: **Coach Tyrone Robinson, Mike Whitehead, Paul Thomas, Darrin Mooney, Dan Mason, Lyle Freeman, Martin Sanchez, Steve Newman, Coach Gerard Solorzano.** Back row: **Deon Station, Mike Grana, Kevin Rhoads, Jason Reininger, Noah Burnett, Ted Tunure, Steve Carl, Hector Avila, Anthony Dixon.**

1

2. Back row: **Van Cochran, Mark Schrock, Jeff Carr, Ron Baron, Dan McColl, John Collins, Allen Myer, Randy Shorts, Bob Patzold.** Front row: **Charlie Files, Rick Coes, Eric Barnes, Tanya Tabackman, Chris Ankeny, Jon Park.**

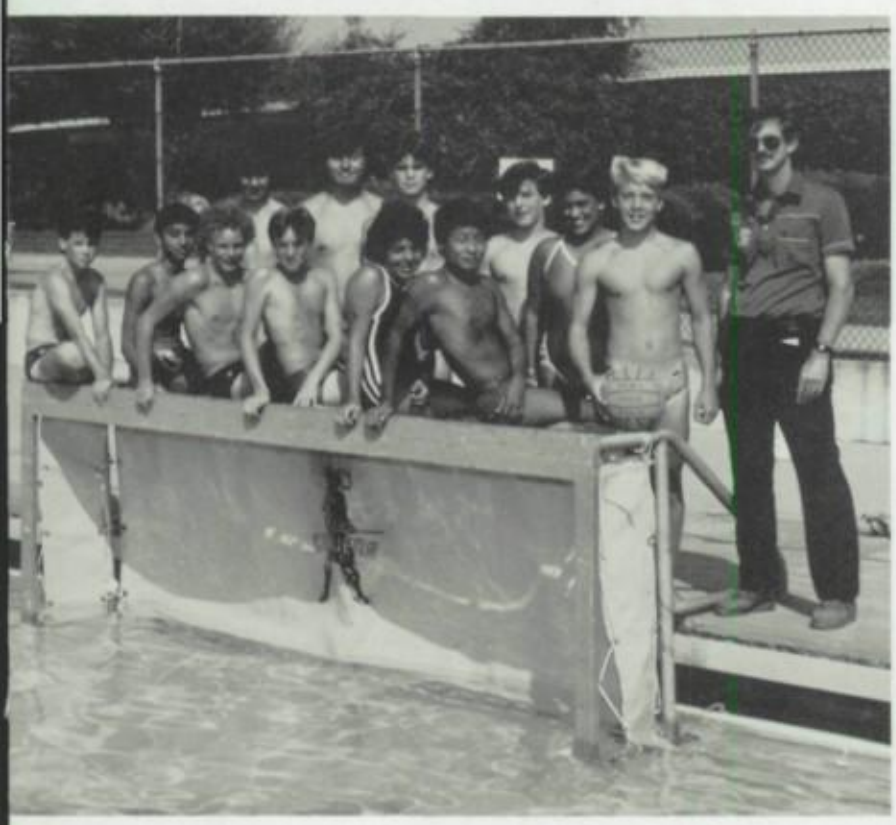
3

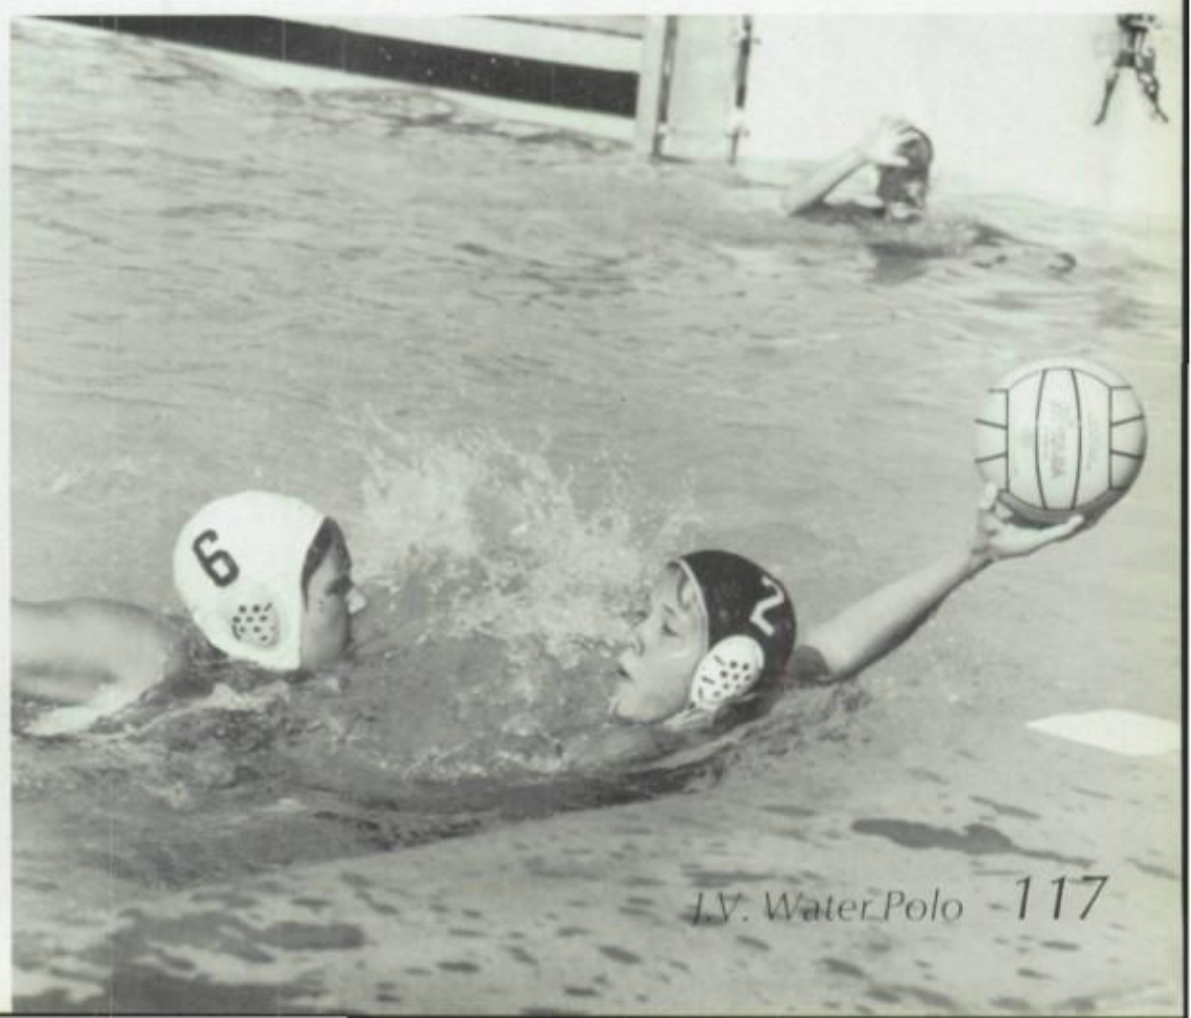
1. In good form, **Jon Park** rises above the water to pass the ball.
3. "Practice makes perfect!" instructs **Coach Patzold.**

A Season to Grow on

Returning to Water Polo were only eight players from last year. Among these team veterans was Varsity Team Captain, **Jon Park.** He is one of three returning varsity players. According to **Coach Bob Patzold,** the team's greatest weakness was inexperience. He also reported that their greatest strength was the "desire by beginning players, to learn a new sport." With this spirit and determination, both the varsity and the J.V. teams experienced tremendous growth.

1. Thanks to the photographic skills of **Glen Anderson,** under water action can also be viewed.
2. Back row: **Eric Lyons, Ed White, Chris Plew, Woody Woodward, Regina Cortez, Trevor Jenkins, Bob Patzold.** Front row: **Jeff McCann, Daniel Ardi, Kenny Nickels, Mike Collins, Annie Diazgranados, Joe Park.**
3. As usual, **Trevor Jenkins** has control of the situation.





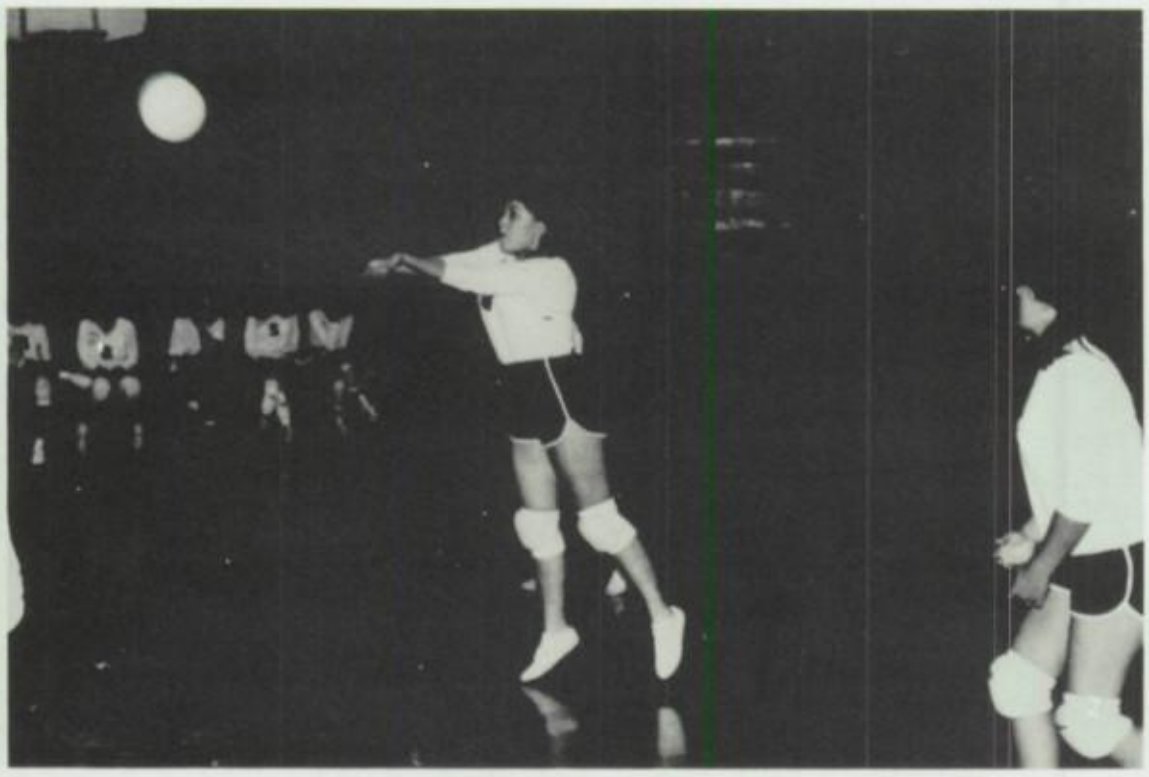
Remarkable Determination

It was a great year for Volleyball for the 1985 season. With only one returning varsity player, the young team astonished many on the court with skilled bumps, excellent sets and powerful spikes. Beating teams, such as, Ontario, Bonita, Etiwanda, Garey and Ganesha, they placed third in the league with a record of 9 and 5. That in itself seemed enough for the team, but there was more . . . CIF. This had never before been accomplished in Montclair High School's history for Girls' Volleyball, and although they lost to Hemit High in the first round, they did gain the experience needed to better their skills for the upcoming years.

1. Performing a balancing trick, **Huong Nguyen** still manages to set **Sipola Tuatonga** for the spike.
2. Front row: **Nancy Ramirez, Stacy Harris, Claudia Arrain, Coach Janet Lehman.** Middle row: **Autumn Unck, Karen Anderson, Huong Nguyen, Teri-Lynn Perry.** Last row: **Sipola Tuatonga, Wendy Kidwell.**
3. Up, up and away is **Nancy Ramirez** for the dink.

Brings Great Success

This was a trying year for the J.V. Volleyball team. With many novice players and a new coach, inexperience in competitive playing became the greatest weakness for our Junior Varsity players. **Coach Slattery** announced her goal, "to teach those on the team the fundamental skills and give them experience to help prepare for varsity competition." Although their record did not reflect great success, the team spirit and enthusiasm reflected the Cavaliers tradition of good sportsmanship and pride.

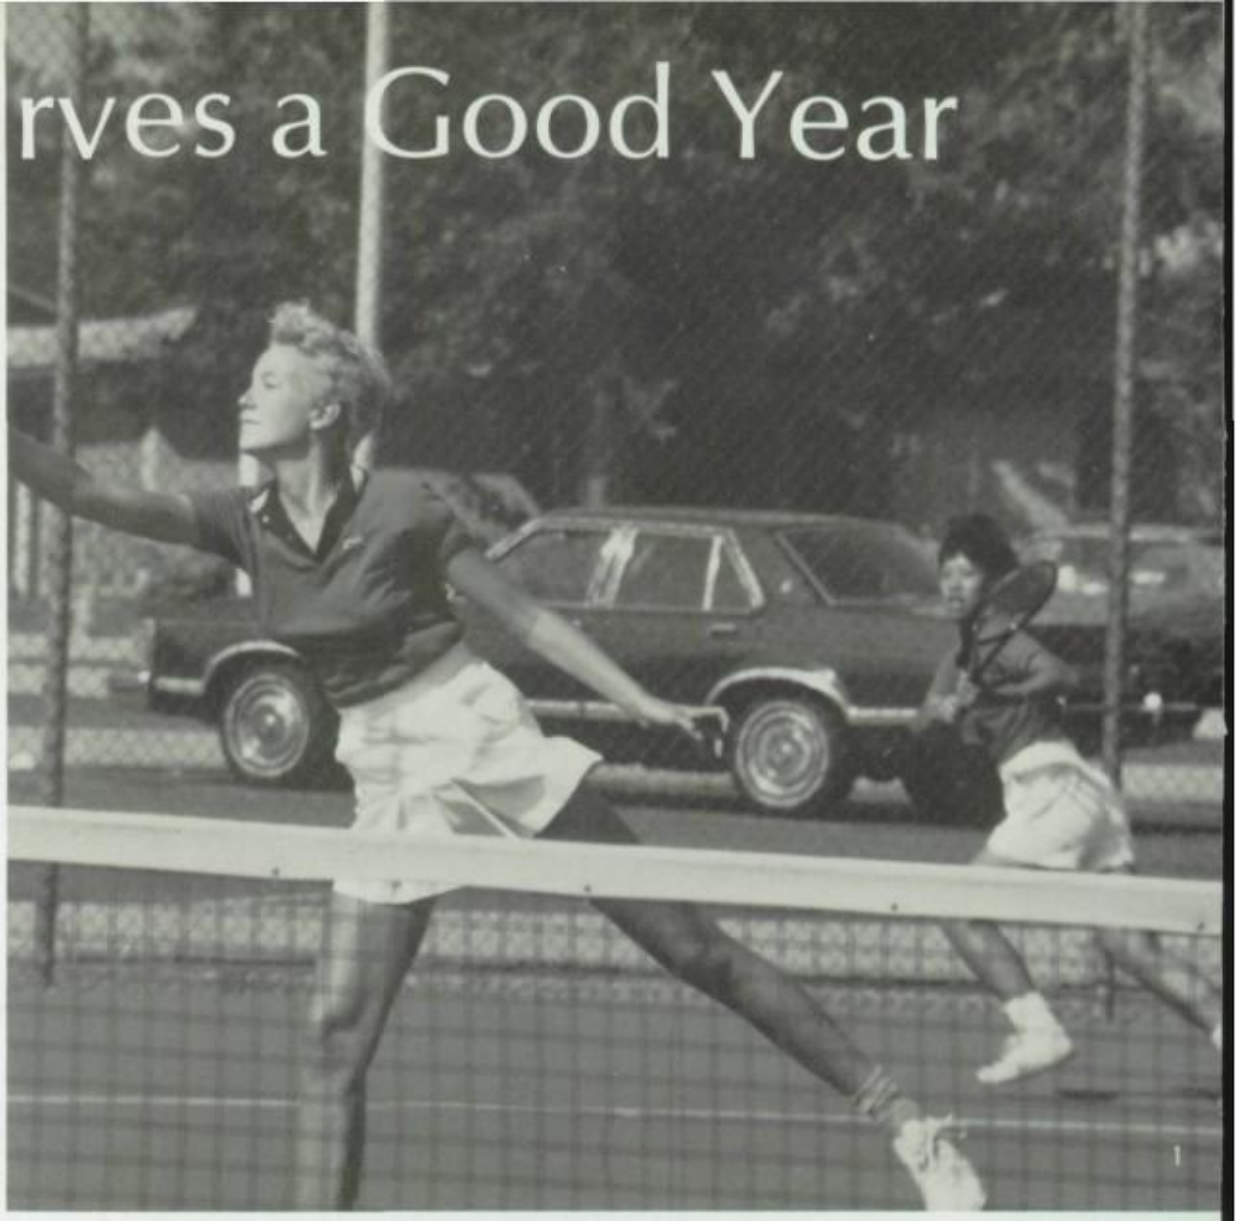


1. Team, Front row: **Jennifer Hazelton, Nicole Abbot, Staci Wilson, Stacey Riley.** Middle row: **Sandy Moore, Lillian Garcia, Michelle Govia, Jacqueline Garcia, Mary Whitley, Lisa Montague.** Back row: **Coach Slattery, Mandy Hill, Jolynn Garofalo, Ann Brown, Gina Speare, Cynthia Rivera, Lori Johnson.**
2. Keeping the ball in play is **Sandy Moore.**
3. Trying to keep the ball on the opponent's side is **Mary Whitley.**

Tennis Serves a Good Year

Once again the Girls' Varsity tennis team had another winning season. By having nine returning Varsity players and the coaching skills of Mr. Ron Montoya, they ended with a 9-5 league record only losing matches against Diamond Bar and Bonita. With their successful record, they got the privilege of playing in C.I.F., but they were defeated in the first round against Pasadena Poly with the score of 2-16. **Lillian Chen** received recognition as being the Most Valuable Player.

Coached by Mr. Bob Berry, a new and complete Junior Varsity team became a part of the '85-'86 team. All the members were new, but they learned fast and had a very impressive season.



1. **Marte Monson** stretches for the ball.
2. Varsity Team: **Kyong Yi, Buffy Maiorano, Joanna Reidenbach, Joli Huang, Hanh Nguyen, Alex Berg, Lillian Chen, Marte Monson, Theresa Gillean, Joann McConnell** and **Coach Montoya.**
3. J.V. Team, Front row: **Dao Duong, Phang Tsan, Wendy Hone, Sabrina Cordova.** Back row: **Coach Berry, Tabatha Taylor, Holly Millay, Shara Tedder, Kathy Huang, Stacy Brayfield, Dung Doung.**
4. **"Like, give me a break!" says Stacy Brayfield.**

Tracks Left Behind

Cross-country started slowly, but soon their pace began to pick up. The whole team gave it their all. Having practiced from summer to the middle of the year, this team did not give up easily. They looked small, but gave a great impression of what a large team should be. For the first time in ten years, they had a girls' team which included a senior, a sophomore, and five freshmen. After their season was over, the team had a feeling of great achievement. They also accomplished what they set out to do, and that was working to their fullest capacity. Two runners were given special recognition. **Felicia Gonzales** was voted Most Valuable Player for the girls' team and **Sean Stanchfield** was voted Most Valuable Player for the boys' team. **Coach Boetel** expressed his views, "It's not the size that counts, but the effort and work put in." They left their tracks behind for all to remember.

1. Back row: **Luisa Ortiz, Michelle Young, Felicia Gonzales, Shawn McComack, Marisela Guerera.** Front row: **Tiffeny Davis, Sherrilyn Johnson, Margaret Vagle.**
2. **Sherrilyn Johnson, Michelle Young, Tiffeny Davis,** pretend not to be shy from the cameraman.
3. **Jose Carbajal** gets ready for the big race.
4. Back row, J.V.: **Bill Graves, Tim Bohot, Phil Chavez.** Front row: **Jason Hicks,** and **Mohamned Charifi.**
5. Back row, Varsity: **Tony Alba, Jose Garbajal, Chris Embernate.** Front row: **David Molinar, Sean Stanchfield.**

Contenders Reveal Alter Ego

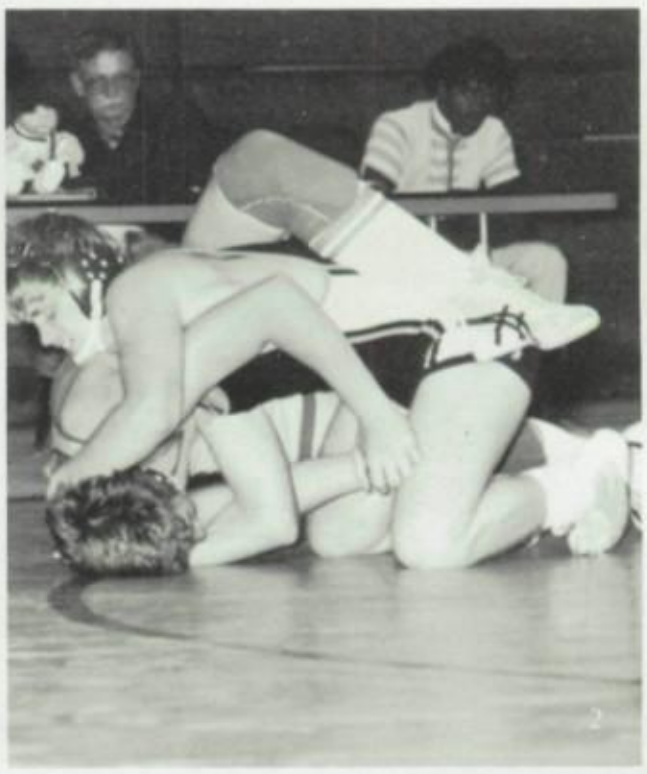
Heart and intensity were just two of the many elements which contributed to the successful wrestling season. Starting off the season with a young team (only 6-8 returning players and the remaining being J.V. and new participants) meant hours of disciplining drills and exercising skills. All the discipline led to not only outstanding athletes but a quality team as well, which was shown in all their areas of competition.

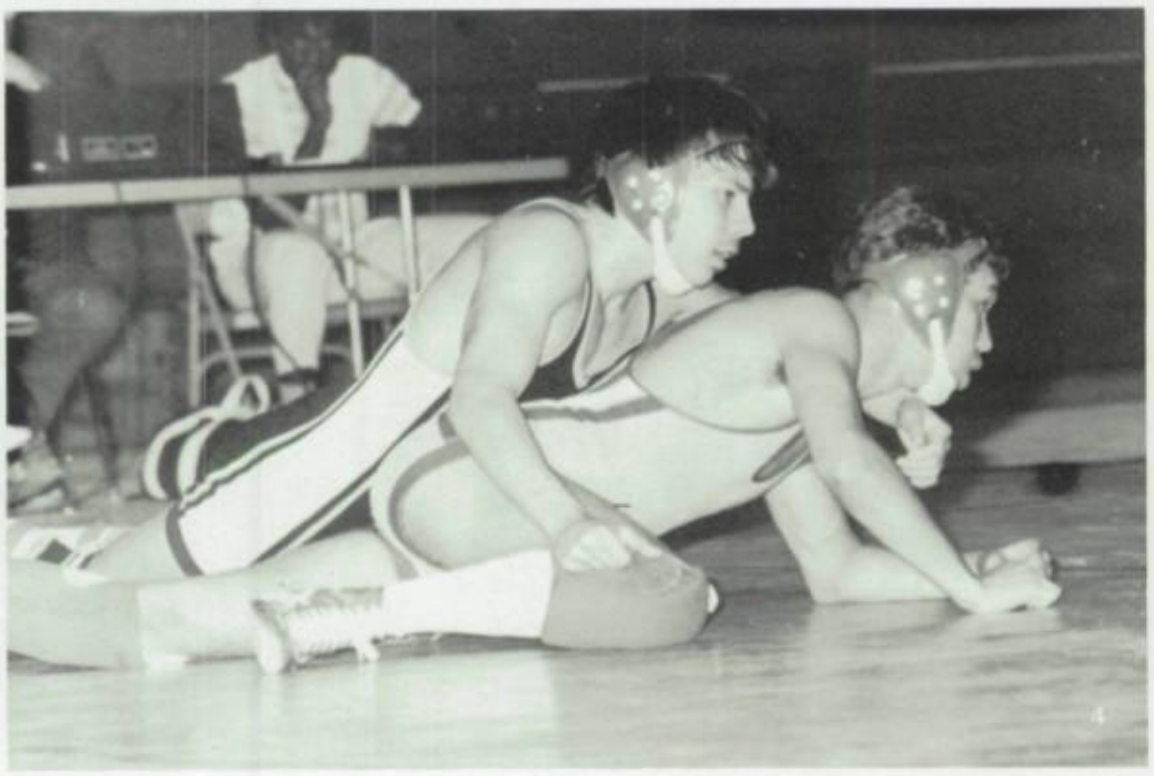
As a team they were able to look forward to finishing third in league finals and placing among the top ten in C.I.F. competition. The strong contenders for a berth in C.I.F. included Senior Mike Huls, Senior Terry Crosby, Senior Dave Jones (also a contender for state competition). In their course of improvement and advancement the wrestlers matched and set new marks of achivement of which to be proud and for all to remember them by.

1. Team picture, Front row: **Ricky Warner, Jimmy Retana, Mike Atkins, David Jones, Ricky Overson, Dave Molinar, Mike Huls.** 2nd row: **Coach Bob Bellot, Matt Gramata, Scott Atkins, Pat Warner, Terry Crosby, Daren Ricks, Pete Moreneo.** 3rd row: **Chris Ankeny, Matt Hunt, Jason Lower, Darren Mooney, Joe Granados, Anthony Hughs, Wayne Bowe, Larry Scott, Joe Torro, Gabe Vadkin, Ed Guerro, Ed White, Eric Callahan, Mario Centinela, Chris Deanda, Tracy Jenkins, Rick Karow, Joe Park.**
2. There is no absence of malice in **David Jones'** eyes or in his strength.
3. **Tracy Jenkins** attempts a takedown of not only his opponent but his opponent's ego as well.

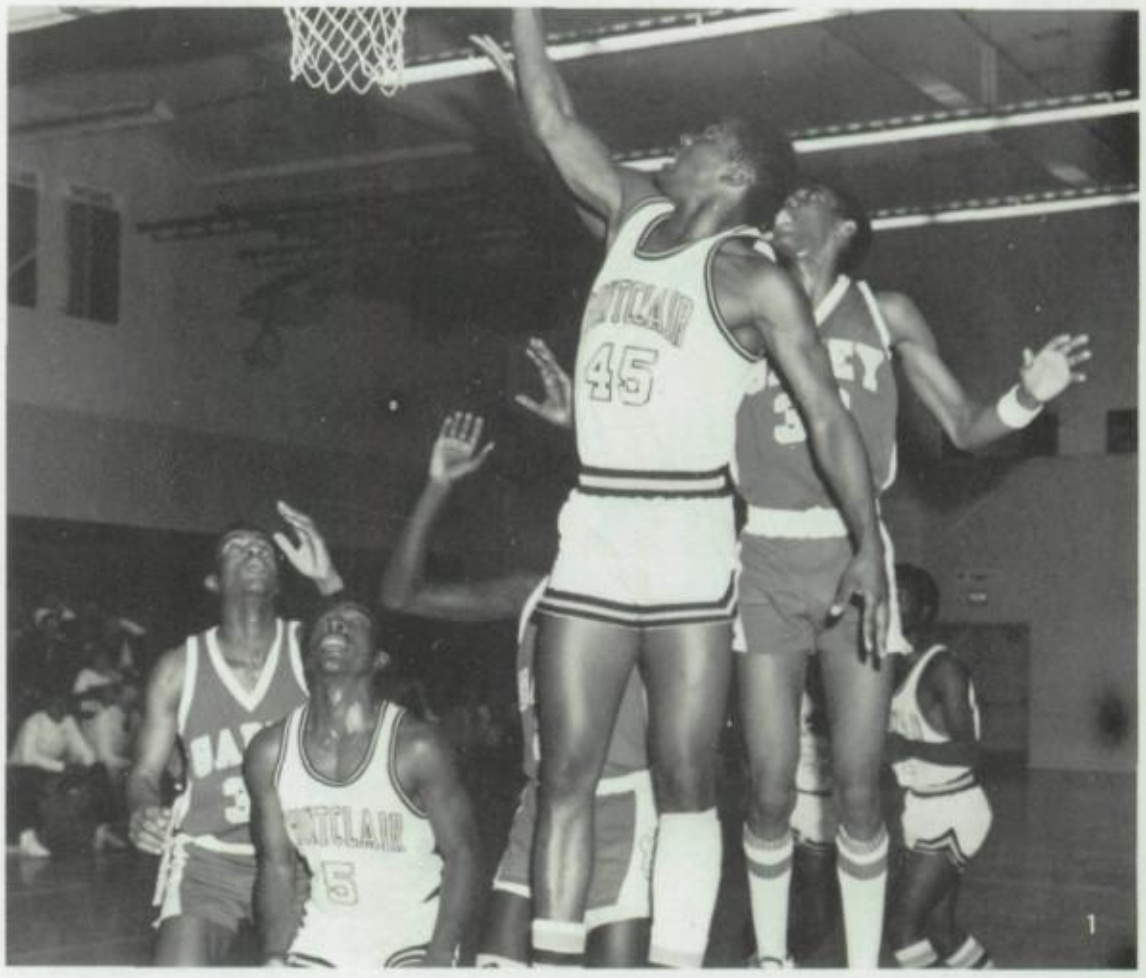
Opposite page:

1. Shooting in for a leg ride, **Daren Ricks** exhibits the finer points of his wrestling abilities.
2. Taking advantage of a good situation, **Pat Warner** gains points for himself and the team.
3. The energy of **Jimmy Retana** enables him to withstand his powerful opponent and anticipate a win.
4. Making way with a stiff slice **Dave Molinar** attempts to overpower his opponent before he realizes it.





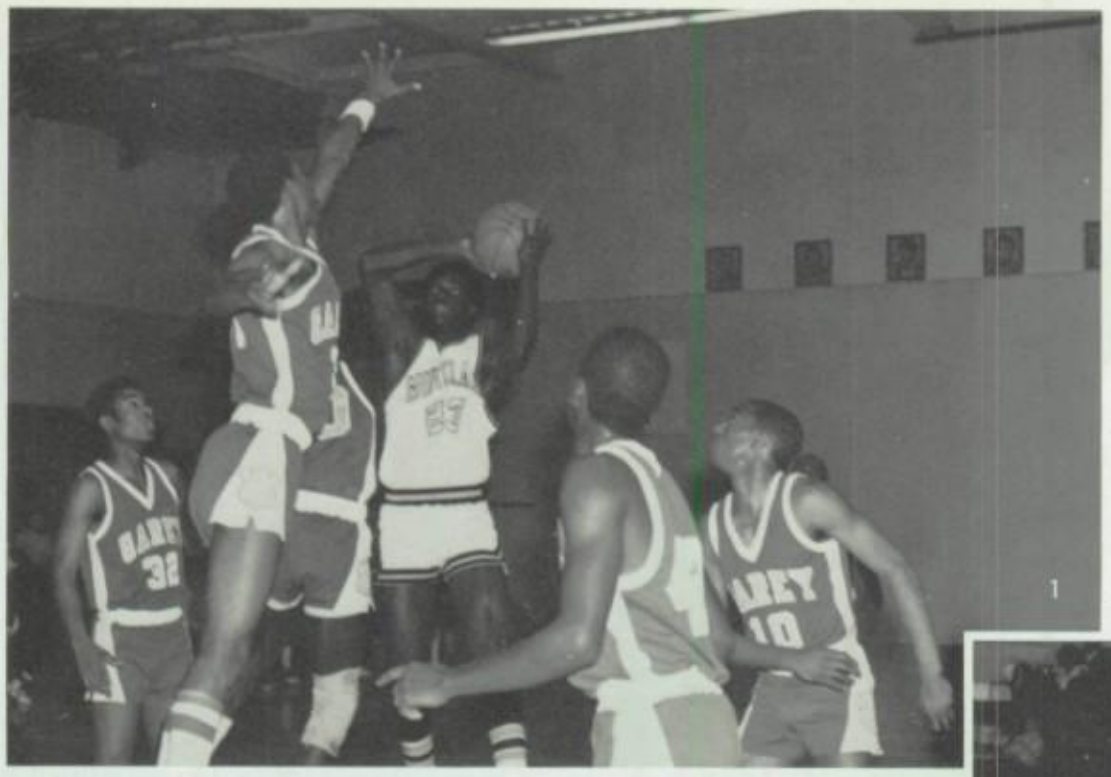
Boys' Basketball Strives for Moore



The Varsity Basketball squad spent the season rebuilding. After losing all but three lettermen from the previous winning season, the inexperienced Cavs showed depth and hustle against the more experienced teams in the league. Their toughest game was against the Ganesha Giants, a team which retained all of its starters from a previous winning season, **Coach Moore** had to work with a team who didn't have enough experience to contend heavily in the league. Fortunately, things look good for next year's squad, when eight of this year's team members return. With many talented players on the Frosh and J.V. levels, the Cavaliers future looks very bright.

1. **Mike Lewis** drives hard to the basket for the score.

Front row: **David Johnson, Preston Johnston, William Frey, Tony Berry, Robert Smalley.** Back row: **Scott Fisch** (Asst. Coach), **Monsel Fields, Craig Gains, Danny Clayman, Mike Lewis, Anthony Jones, Wayne Dumaz, Mike Johnson, Dion Staton, Tony Bell.**



1. **Tony Bell** pulls up for a jumpshot from the foul line.
2. **William Frey's** quick dribbling put his defender in the popcorn machine.
3. **Anthony Jones** draws the foul on a 15-foot jumper.
4. **Monsel Fields** gives a quick pump fake before passing to a nearby teammate.

J.V. Deserves a Little Hoopla

The J.V. Boys' Basketball team performed exceptionally well. In fact, they improved so much compared to past years that they came to be known as the best J.V. Basketball team our school has ever produced. This was proved through all of their victories over other schools such as Ontario High, Bonita High, Etiwanda High, and a few others.

The reason for so many victories could have been attributed to excellent athletic ability, but it was mostly because of their overall team effort. Or as **Scott Webber,** co-captain for the team claimed, "Our team doesn't work for individual effort, we all work together as a team." This statement represented the position of the whole team. And because of such a positive attitude, our J.V. Basketball team proved, indeed, to be "on the ball."

The New Recruits

With the excellent coaching of **Mr. Tyrone Robinson,** our Freshman Boys' Basketball team's goal was, of course, to win, but above that the team wanted to go out and try their hardest, and to learn all about the game. Or as **Coach Robinson** said when referring to what the highlights of the season would be, he replied, "The student athlete's ability to learn more about basketball during the season, than what he knew when the season started."

Learning about the game and winning it was a result of a lot of hard practice, and total effort from the team. Although all the difficult practices, and hard effort may not have resulted in the best victory record, it certainly resulted in the bettering of the athletes.

Power Plays Never Fail

Making baskets, layups, dribbling, and slamdunks were just a few smooth moves the MHS Girls' Varsity Basketball team performed while fighting their way through the basketball season.

The female cavaliers had their job cut out for them, and they succeeded. Their hard work was rewarded with respect and satisfaction. The "quick-paced" Cavs played their opponents with a fierce and powerful weapon, their strong will. That will kept them alive through the rough spots that every athlete experiences.

True to Montclair spirit the Cavs did their best this season. They enjoyed every second of the competition on court. With an eye on future championships, they planned their strategy on this season's past mistakes.

Swift Hot Shots

J.V. Basketball had an all around good year with a record of 7-7 and ending in second place in the Hacienda League. There were two letterwinners that returned to the team. Twenty-five girls tried out for the team with only seventeen making it. The teams greatest strength was their speed which overcame the weakness of being inexperienced. Competition with Ontario lead to two overtime games while ending up winning 39-37 and losing the other to 44-42. Coach **Wayne Fleming** stating, "Having more players this year created more competition for playing time which made it difficult to rotate players so all could have a chance to play." Their most difficult competitors were Chino and Diamond Bar while the easiest was Garey High School. Team work was an over all trademark of our 1985-86 J.V. Basketball team.

Catch It!

J.V. softball looked for a promising year with a team of nineteen and seven returning letterwinners. Forty-five girls originally tried out for the team, but they had to eleminate many till they came up with the nineteen best. Coach **John Teikon,** with the assistance of **David Pohl,** felt that the defense was looking good and that they needed a little more work on offense and at batting. Stated Coach **Teikon,** "With some hard work there is a lot of potential in many of the girls to be good players." A true trademark of this team was the spirit and the fun they had at playing J.V. Softball.

Diversified Styles Opt for Unified Marks

A fresh beginning could easily be tagged on the 85-86 Varsity Softball team. With only four returning players to base the team's experience on and the new players having to adjust to one another, the Varsity Softball team still proved to be a promising team and a threat to its competitors. As any newly formed team would begin the season, the players found themselves having to get acquainted with and adjusted to the styles and attitudes of one another. Throughout their numerous practices, the players soon developed into a strong and challenging team with one style and attitude of their own: to be the best that they could be and of course win! During a turbulent but hopeful season, the team found that winning wasn't everything, it's how you play the game. So good sportsmanship and a healthful attitude towards themselves brought personal and team accomplishments to progress with.

Stroking Their Way to Success

With the expert coaching of Dan Helé, the Varsity boys' tennis team was headed for a top season. Their team's reputation had grown during the last four years, and had proven that tennis was here to stay at Montclair. The fundamentals of tennis were taught to the newcomers as they quickly caught on during a rather one-sided match against Bonita ending with a score of 16-2. One of the highlights of the season was playing against Daimond Bar, league champions for the last four years. Coach Hele felt that, "Our first match against the Brahmas indicated that a major upset was possible." After this excruciating first match with a close score of 8-10, Montclair was confident about winning the second round. The Montclair boys' tennis team has come a long way in the last four years, not only because of a strong and dedicated coaching staff, but also due to the naturally talented players that the school had produced. It was because of the undying dedication the team carried within them the four years that they were able to produce their own trademarks of unity and hardwork.

Swinging their way to the top was the 1985-86 J.V. boys' tennis team. They started off their season sucessfully with a score of 20-0 against Ontario. Unique was a style all their own, that's one way to describe those remarkable Cavaliers. Different contributions among the players made the special team they had. Cooperative attitudes was surely an asset to the team. They practiced long, hard, and at the same time, enjoyed themselves. Everyone of their games was exceptionally challenging. All of the members should have been congratulated on their tremendous effort. Head Junior Varsity coach **Ron Montoya** commented on how strong and promising the team looked. As later they lived up to his words. They were the backbone of the Varsity Boys' Tennis team. They left an impression of being invincible.

Determined to Come Home First!

With springtime came swing time: Baseball season. The team, composed of outstanding athletic and perfectionate athletes, played double-hitter games like pros. It was the time of the year for the mighty Cavaliers to face the pressure of many treacherous games. The Cavaliers had what it took to struggle to the top.

Some rainy weather delayed many games for the team, but this did not dampen their techniques. Montclair's Varsity Baseball team was more dynamic than any other team. Determination pushed these energetic Cavs to success. They finished that last ending still showing their superb performance and esprit de corps.

Victory after victory made them a triumphant team, giving great confidence. While their fans cheered them on, the Cavs strived for their achievement with compelling confidence. The players practiced very hard and they proved the phrase "practice makes perfect" to be true. The enthusiastic team was in high-gear and very determined to slide into first place.

J.V. Slams It Home

During spring, the J.V. Baseball Team seemed to inspire much support from the Montclair fans. Of the twenty-six Cavaliers who tried out, only 18 got the opportunity to participate on the team. The Cavs had high spirits. Just waiting for a chance to get up to homeplate to slam home a winner. They knew a rough season was ahead, but that didn't stop the team from being the best. At the first game of the season the Cavs did slam home a winner. They knocked in six runs to the Ontario Jaguars. The captain of the team **John Dugan** went 2 for 4 and batted in 2 hits to add to the six runs. His co-captain **John Lavaris** also pinched in by going 3 for 4, batting 2 hits and 1 double. This was only a beginning series of wins for the team. They also went on to beat the Chino Cowboys 10-1 and many others.

Coach **Don Pierce** felt the J.V. players had a couple of good strengths on their side — size and experience. Most of the teammates had experience in baseball. The majority of the players were from freshman ball. The returning veterans were John Dugan, John Lavaris, and Pat Warner. These players gave a steady helping hand to the young rookies. These J.V. sluggers felt they had no serious weaknesses and were ready to do what they knew how to do best, PLAY BALL!!!

The frosh baseball team got off to a pretty good start by beating the Claremont Wolfpack. It was a great game. The rookie Cavs felt very exuberant and full of enthusiasm. **Matt McCune,** the leader of the freshman pack, believed the team's greatest strength was speed. He felt his team could sweep the bases clean and score those runs with a breeze.

There were 18 fast-paced Cavs who were ready to go out there and fight. Being young and inexperienced they knew all their games would be difficult. They couldn't afford to grow weak. What motivated the players to keep swinging was the last game of the season, Diamond Bar. They knew it wouldn't be easy, but whoever said it would be?

The young players greatest weakness was pitching. They had lost two of their starters. It was pretty shaky for awhile, but **Matt McCune** worked himself around the team and was able to produce an effective pitcher in **Paul Carpentier.**

The frosh baseball team proved that they could play a hard game of ball and at the same time have fun.

Taking the Plunge

Splash!!! The Montclair boys' and girls' swim team was off to their first spring swim meet with a winning attitude. They were able to look forward to a good season with high expectations.

Despite the fact that they got off to a bad start, it didn't drowntheir spirits. They found their way into a whirl of victories. For instance, they were able to use their masterful strokes and clean cutting kicks to sink Don Lugo's team,not to mention Chino and a couple of other competitors.

Because many of the team members were returning from last year, they were experienced and were interested in improving on past records, and striving towards better future goals.

With the combination of a winning attitude from the swimmers and expert teaching skills from **Coach Patzold** and **Coach Cochran,** the team was able to learn, work and grow into a successful product of Montclair High.

Graceful Determination

Even though the majority of the track team was rather young and had little experience, the team members showed plenty of potential and talent. The squad had extermely grueling workouts which payed off in the end. The new track members outnumbered the returning ones, but on the track they all clearly stood out not only by their grace, form, and perfect stride, but also by their performance. On the day of the meet, the runners kept their minds on their events, preparing themselves mentally for the race. As the starter called the runners to their mark, the look of determination was on their faces. The gun would go off, the race would be over in a matter of seconds. Who would want to spend weeks of training for a race that would only last a few seconds or minutes? Well apparantly there were many Cavaliers who enjoyed running and who liked the challenge. Each race was something to look forward to. The runners got a lot of running even if they didn't place, they might have improved their times by a few seconds, that's what made it worth their while. Each competition left the sense of accomplishment and/or the feeling of improvement. Most sports require an overall team effort. Track, however, is more of an individual sport. Team effort was still important not only in relays, but also in encouraging each other.

Wayne Fleming was head coach, **Mike Arenas** and **James Leffler** were the assistant coahces. **Coach Arenas** was primarily responsible for long distance and middle distance. With each coach covering a specific area, it made coaching a lot easier. They could spend more time on the individual team members.

Coach Fleming clearly stated the strengths and weaknesses of the team. He believed "the sprints, long jump, and shot put to be the mens' greatest strength." As for team weakness they were in "distance, middle distance, and pole vault." As for the girls, they seem "to do well in all events."

Enthusiasm Illustrates Will to Win

"Enthusiasm by the team and desire to win," was the way coach Patzold describes the Junior Varsity team. His main determination was to work on basic skills and prepare them for varsity squad. With only three returning players and losing two players up to varsity, the team consisted mainly of freshmen and sophomores. Inexperience and lack of basic skills was their greatest weakness, but the team worked together and made it a successful year in that they gained many skills.

Optimism Endures Hardship

In spite of high spirits and elevated optimism the Junior Varsity soccer team found their season very trying. Only five returning players and the loss of their goalie halfway through the season exemplified the hardship the team endured.

Coach **Sally Cavion** emphasized, "Every year must be taken for itself. You must approach the team with an open mind and try to do what is best for their team." In spite of all the problems, the teams greatest determination was to work together and have a terrific year!

Alive and Kicking

Experience played a major role in the boys' varsity soccer season. With only 6 players returning from last year's squad and a new coach, the season was looked on as a rebuilding period.

"In the past, Montclair soccer has been very competitive; I hope to keep up the tradition," stated **Coach Gerard Solorzano.**

What the Cavs lacked in experience, they more than made up in with their determination. Their will to win and the faith they had in one another's ability proved to be an adequate substitute for experience. Their success as a team depended largely on their ability to work as a team and for each member to contribute by playing up to their potential.

With the combination of energy displayed by the new members and know-how by the veteran players, which was supposed to be a learning experience, turned out to be one for opposing teams.

The Mark of Champions

The returning C.I.F. Champions had another tough season. Before the season started the Cavs entered the Alta Loma Tournament for the second time, and left with second place, behind Alta Loma.

Coach **Steve Fagan** stated, "The team is doing excellent, and I have great expectations for the upcoming season!"

With the determination of the team set, the beginning of the season started off easy. Scoring was high and so were the team's spirits.

But the second half wasn't as easy as the first. The challenge of receiving first pláce was off on a race between Diamond Bar, Bonita, and Montclair.

With the odds against the Bramhas and the Bearcats the Cavs were favored in taking 1st. place. This would be two in a row for the Montclair team!

CLUBS

Clubs provided an opportunity for Cavs to leave their individual marks on M.H.S. Through various clubs, students had the opportunity to express their own points of view. These clubs were formed to promote the interests of each and every individual at Montclair. Whether it was the Science or G.A.T.E. clubs which were intended mainly for the more academically inclined or the physically active clubs like Ski, Golf, and Theater.

By working together through fundraisers, community services, field trips, and other activities, club members were able to meet and converse about a variety of common interests and experiences. One activity in particular that many clubs participated in was the Haunted House project. Certain clubs volunteered their time and money to sponsor the building and expenses of what turned out to be the very successful production of the Haunted House. Because of the accomplishments of these clubs, the entire student body benefitted from their involvement and active support in the school. It was the high standards within these organizations that attributed to the unity of Montclair High's students.

Breaking Down Barriers

Studying the cultural heritage of many different countries ranging from India to the U.S. was why the International Club was developed.

The club members met to understand their international neighbors, their backgrounds and customs.

Ms. Richter, the advisor, made it possible for interested students to experience the various different beliefs and traditions represented in the club.

Even though the International Club was busy in making their own identity, they were active in our school by taking part in Food Fair and Candy Week.

Although International Club had a difficult beginning, it proved to be a worthwhile experience allowing MHS students a chance to learn about many different countries surrounding them in their school.

Key to Life

The Key Club was an organization devoted to Public Relations between Montclair and the community around it. They gave up their free time to help those less fortunate than themselves. The personal satisfaction they derived from such a worthwhile project was greatly valued.

The "Keywanettes" got together with other high school Key clubs in the community and put together a picnic at Upland Memorial Park. They all shared their future plans and views for their clubs. Everyone brought back to their own campuses the benefits of sharing ways of improving community relations.

During the Christmas season, the "Keywanettes" did more than their share to carry out the spirit of the season. They went to Doctor's Hospital of Montclair and sang Christmas carols to the sick and those in need of cheer.

Club members felt that their first year back on campus as active organization was a great success.

Committment to Excellence

Have you ever wished you had a second chance? Well, MACC was designed to do just that, give students a second chance to improve their academic performance by committing themselves to hard work and determination.

Although no officers were involved in this program, a Student Advisory Board was formed. Members of the board were elected by the students each quarter and they met once a month with the teachers of the program.

Along with help from teachers, students could also rely on help from each other. **Mrs. Pratt** stated that the older students were meeting with the younger students to encourage and advise them. This kind of teamwork between students was proven to be both fun and educational.

Effort Produces Achievement

The Montclair Opportunity Core Curriculum, also known as MOCC, was an academic program designed to assist selected 9th graders to begin to work up to their full potential.

With the assistance of dedicated teachers they were encouraged to use their capabilities in Study Skills, Physical Science, English and World History, completing approximately 2-4 hours of homework every night. Dr. Brooks, one of the MOCC teachers related, "Students who have completed the program have been successful in developing more positive attitudes toward school."

The students felt their teachers had been very helpful to their progress, as evidenced by improved grades. They also had learned to set goals for themselves. The teachers involved were pleased that the students had demonstrated both self-discipline and improved attendance.

The success of the MOCC program was measured by the progress of students, and the program was considered to be very successful.

Concentration Triumphs

Making the right moves, the MHS chess club met every Tuesday and Thrusday in room 93. Along with practicing for important matches against other schools, they played for personal enjoyment as well. The club gave out J.V. and Varsity letters to qualifying members. In every match there was superb concentration on the faces of the challengers and opponents that proved there was more to chess than moving pieces.

M.E.C.H.A.'s First Year

The word MECHA comes from the first letters in Moviemiento Estudiantel Chicano de Aztlan — translated to: Chicago Student Movement of Aztlan. The first groups were formed to give the chicano students a chance to show that they were a contributing part of the population.

The main purpose was to get chicano students involved in school activities and teach them more about their heritage. The members took part in food fair day and planned a dance for Cinco de Mayo. Even though it was the first year for MECHA, they made their mark, and will continue in the future.

T.A.C. Promotes Awareness

The Theater arts Club's purpose was to promote awareness of local community plays and assist the school in its own productions. Better known as T.A.C., this busy group of Thespians met during lunch on Thursdays.

They were involved in many school fund raisers and activities such as showing movies during lunch. The club saw two professional plays and had two plays of their own in production, **"The Worst High School Play in the World"** which opened in March and then **"Agnes of God"** which debuted in May. Both were highly successful and show cased the many talents of Montclair students.

BSU — Reaching New Heights

What is BSU?? BSU is the Black Student Union which promotes Black Cultural Awarness and the education to others of its history.

BSU had undertaken many activities during the school year. One of the most popular was the assembly put on in January, honoring **Martin Luther King Jr.**

This assembly punctuated the importance of our newest federal holiday, Dr. King's birthday. This program showcased the talent of many fellow, students and guest performers from Montclairs community.

The assembly was enjoyed by everyone in attendance and caught the interest and attention of all, regardless of cultural background.

The members of BSU also supported after game dances and entered food fair day, taking the opportunity to make their mark here at MHS.

Marked for Excellence

GATE (Gifted and Talented Education) is a program designed to offer students an opportunity to do intensive, accelerated work in the Honor of Advanced Placement classes. To enter the program, students were tested and interviewed by the GATE coordinator, **Mr. Tom Nally.** Students in advanced placement courses studied college-level material and took examinations to receive credit and/or advanced placement in college. During the past year, students in the honors program engaged in a variety of off-campus activities beginning in Spring with a visit to the Museum of Natural History. In October, sixty honors students travelled for a campus tour to the University of California at Riverside. In the second semester, Students visited the Museum of Contemporary Art and Olvera Street in Los Angeles. The program currently offers nineteen courses in five different departments.

Leaders of Tomorrow

California Scholarship Federation, the most prestigious academic organization for high school students, was designed to honor outstanding scholars. To become eligible, students met the required grade point average and attended at least two chapter meetings per semester. The memberships lasted only through the semester, so the eligibility depended on the next semester grades. Members with enough semesters in the high school career, became a Gold Seal Bearer, and Life Members of the California Scholarship Federation. Other benefits of CSF included giving students an advantage for college admission and various opportunities for scholarships.

Fishing in New Waters

Fishing has been a sport and a way of life from time memorial. The fisherman's club at Montclair High was one way young people with the same interest in fishing and companionship could get together to enjoy this great activity.

The school's fishing club had eleven members. They had several outings to Redondo Pier and Dana point for fishing activities. President, **Doug Patterson,** and vice-president, **Dwayne Nelson,** with the aid of **Mr. Ed Lease,** led the club in their exciting experiences.

1. On the Redondo Pier, **Drew Webster, Doug Patterson, Kyle Calhoun,** and **Dwayne Nelson** seem to be enjoying their company.
2. As **Dwayne Nelson** probably knows, the cold early mornings on the lake can make you want to crawl back into bed, but the prospect of a strike keeps you on the shore.
3. **Mr. Lease,** the advisor of the club, has his own office set up in the Career Center, from which he also runs the engineering club.

Money Makers

A new club under the direction of advisors, **Mrs. Murphy** and **Mrs. McConnell,** along with club president **Julie Tillman** and treasurer **Alexandria Berg,** called the FBLA, brought students together to help them to develop business and leadership skills.

They participated in a candy sale from October 21 through October 25. **Mrs. McConnell** attended a training seminar for competitive events in the spring. The club hosted a County Business Educators Conference on October 27, and also provided scholarships to outstanding business students.

Home Makers

The FHA program is a tradition in most schools and has been for many years. Although it was most prevalent in the past generations, it is still alive and well today. Now it is called the FHA-HERO, which stands for Future Homemakers of America — Home Economics Related Occupations, but members were still reaping the benefits of the program.

The goal was a combination of home life, vocational, and community training as well as giving the club member a personal satisfaction. They wore red jackets and followed the traditions of their predecessors. They were continuing to keep this tradition alive.

2. **Deanna Brown, Heather Marineau, Mrs. Anderson, Lisa Murphy, Karla LeVegue,** and **Michele Gilly.**

Designs of Excellence

As stated by Art Club advisor, **Dave Garcia,** the club was set up to "give students who do not have an art class, a chance to do art during lunch." The club members also meet every other Friday in the new art gallery.

Club members which included president **Diane Boucher,** vice president **Jennie Boucher,** and treasurer **Mike Petri,** were enthusiastic about their work. In fact, some members had artwork displayed at the district office. "Our purpose," claimed Mr. Garcia, "is to continue to strive for creative excellence and hope that others will participate in art activities."

Literary Club Pushes to Publish

Among other changes, two advisors were added and an editorial board was set up for Montclair High School's Literary Club. "The purpose of the club is to publish the literary endeavors of M.H.S. students," commented Advisor **Judy Peterson.**

Editor-in-chief, **Cherie Metier,** Lay-out Editor, **Susan Crisp.** Proofreader, **Heidi Mason,** Ad-man **Kara Lakkees,** and Editor, **Meredith Long** met with advisors and other club members every other Monday during lunch. Selling baked goods at lunchtime was another activity which earned the club $35 on Food Fair Day.

Symbols of Communication

Unlike most clubs, Legislative Council was an organization of class representatives who met once a month to better the communication between student council, the faculty, and the student body. Issues and problems were discussed during the meetings then later interpreted to their second period classes. Some of the issues that were analyzed during the once-a-month meetings included such school activities as the Haunted House and the lip-sync contest. Problems around the school such as student parking and drunk driving were lessened through the use of parking permits and the Safe Ride program.

The students were able to discuss the issues freely and debate questions that may have directly affected the school. This organization not only enabled the representatives to develop communication skills, but increased communication for the entire whole student body as well.

Marks on the Slopes

Ski club has long been an organization of discipline and recreation. Being an open club meant beginners and advanced ski buffs alike were always welcome to attend any of their numerous meetings and trips. Ski clubs members participated in many planned activities such as an aftergame dance and popcorn sales during football games.

They also raised money during food fairs in order to pay for trips, ski lifts, and equipment rental.

Because the members gained recognition among themselves and other ski buffs, they were able to make their marks on the futures of amateur skiers to follow.

1. The slopes are a perfect place for fun and freedom in a specialized manner of sporting.
2. Due to the Ski Club getting off to a late start, the club members are uanable to be identified, but they are still being given the recognition they deserve.

Engineers Make New Start

Engineering club was a new club on campus that was founded by **Mr. Lease,** director of Work Experience. The main purpose of the club was to expose interested students to the field of engineering and its many career possibilities.

Every Wednesday, **General Dynamics** in **Pomona** was the regular meeting place for this off campus club.

Plans for the year included exciting and educational trips to **Caltech** and the **Naval Test Center.** These future explorers of space and technology experimented with the actual building of a rocket and looked forward to its maiden voyage from its launch point. A new trademark was set by these new technologists by taking their club activities very seriously.

Clarion Delivers!

The Clarion has become the students' source for information on everything, including the dates of upcoming dances, the latest scores on sporting events, and even a source for current events in the news. The Clarion also conducted an occasional contest, such as their "Hot Lips" contest.

"We try hard to print what we think the students want to hear." And so far the Clarion staff has done just that, thanks to an excellent staff, and a dedicated advisor, **Mrs. Ruth Reid.**

In order to provide Montclair High with information that would interest the student body, the Clarion staff worked long and hard every sixth period to produce and distribute the newspaper on a monthly basis. True to the code of good journalism, the Clarion staff presented their articles with the thought in mind to interest the reader, and to present an unbiased opinion, with the exception of the editorial section, where the staff's opinions were aired, and the students' opinions aroused.

"All work and no play makes Jack a dull boy."

This statement could very well have been the "trademark" of the 1986 Glaive staff. A touch of insanity was a mandatory requirement for this staff. Without the "craziness" that accompanied each and every crisis we came across, life would have been intolerable. It was a combination of dedication and derangement that got us through the year. The year included excruciating hours of wracking our brains writing copy, trying to be creative with layout after layout, waiting for pictures to return (all that time waiting), and days of planning. Our work was cut out for us even before the year ended.

Producing the Glaive took a great deal of work-team work and every team needs a good coach. We were lucky enough to have a great one! Thank you **Miss Roth "Loretta"** for your endless dedication, great artwork, and for putting up with us. None of this could have been possible without your help.

This yearbook — a "trademark" of all the hard work along with the fun that we shared together is a product of laughter, tears, and screams, and we are both proud to have played a large part in.

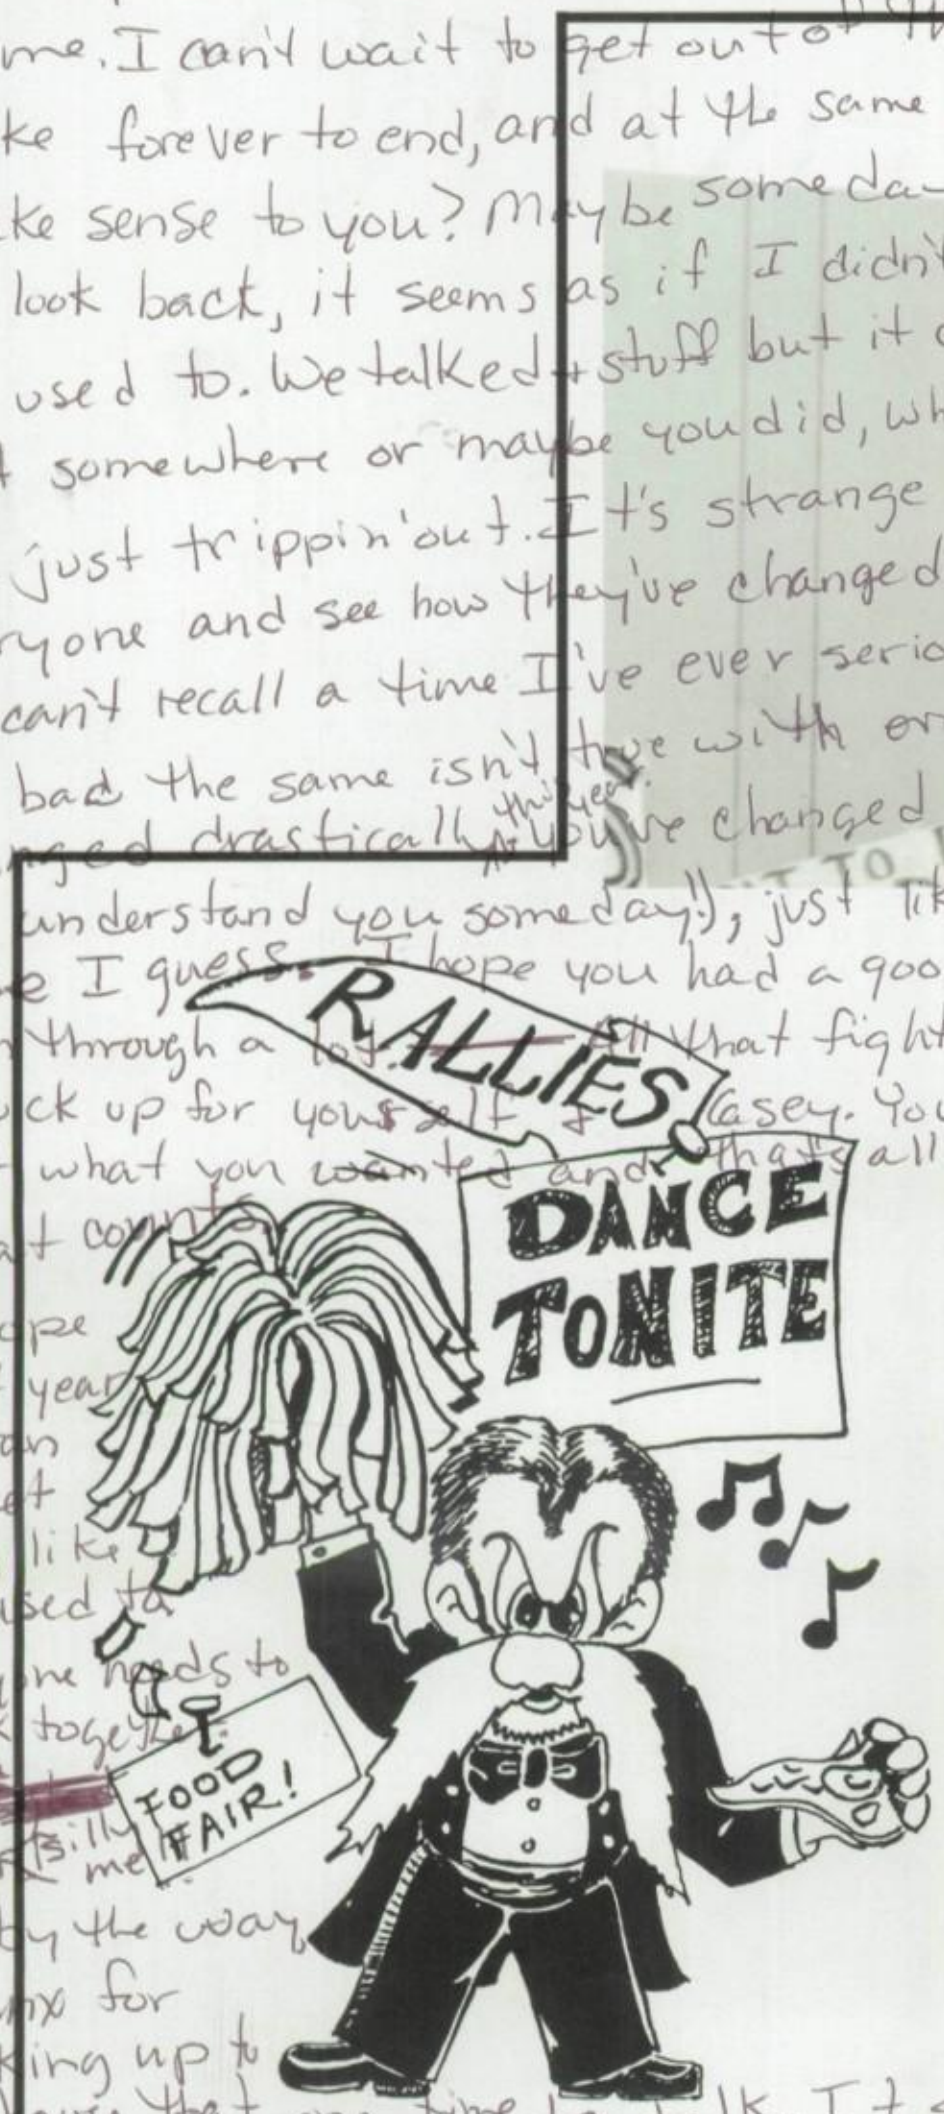
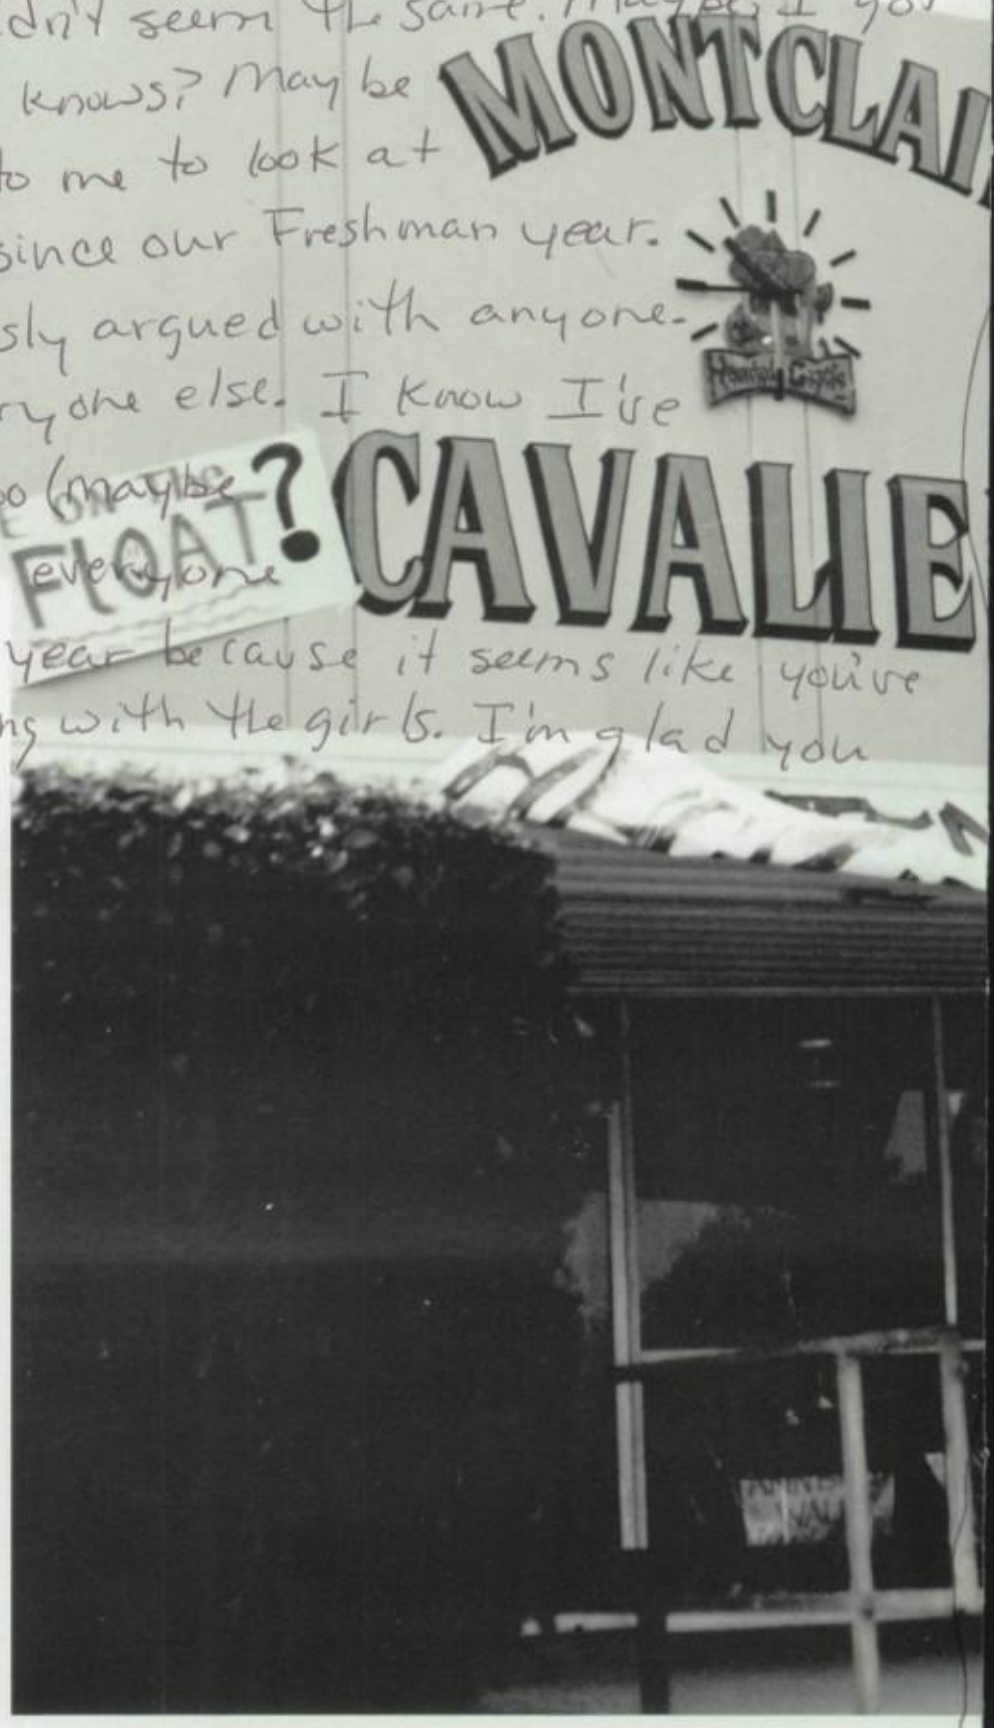
Darcy—

Darcy, Darcy, Darcy, Darcy, Darcy, Well the year is almost over finally. Yeaaaaaaaa!! How's it feel to be a senior (almost)? It feels great to me. I can't wait to get out of this hole. This year seemed to take forever to end, and at the same time it just flew by. Does that make sense to you? Maybe someday you'll understand me. Now that I look back, it seems as if I didn't know you this year as well as I used to. We talked + stuff but it didn't seem the same. Maybe I got lost somewhere or maybe you did, who knows? Maybe I'm just trippin' out. It's strange to me to look at everyone and see how they've changed since our Freshman year. I can't recall a time I've ever seriously argued with anyone. Too bad the same isn't true with everyone else. I know I've Changed drastically this year. You've changed too (maybe I'll understand you someday!), just like everyone else I guess. I hope you had a good year because it seems like you've been through a lot. All that fighting with the girls. I'm glad you stuck up for yourself Casey. You got what you wanted and that's all that counts.



I hope next year we can all get along like we used to. Everyone needs to stick together. [redacted] is silly [redacted] me.



Oh, by the way thanx for walking up to my house that one time to talk. It surprised me but it made me feel special. It showed you could still talk to me. (Big deal, right?). Well, I hope you have a terribly bitchin summer. I know I will. Pickin' coconuts, sugar cane, + stuff. for a month in the beautiful, tropical island of Hawaii. That's right folks, you too could win an expense paid trip in beautiful Hawaii just by

ACTIVITIES

Leaving their trademark not only at M.H.S. but at different schools as well, was the purpose of many MHS activities. Performing groups such as Band, Pep Squad, Drill Team and Choirs had a chance to 'show off' Montclair in front of rival schools and spectators. These performances allowed involved Cavaliers to show their pride and spirit.

One new activity which was perhaps the most involved and interesting was the Haunted House. This activity not only characterized Cavalier talent but generosity as half of the profits went to benefit the tragic earthquake in Mexico.

With a regained interest in spirit also came a renewed interest in activities. Changes around campus could be created to more involvement in activities. Cavaliers saw more effort and enthusiasm in dances, rallies, and class activities. Much of this success was due to a combined effort by Pep Squad and Student Council to expand spirit and involvement on the campus.

Cymbal of Success

Long hours and hard work have made the Montclair High School Marching Band a very successful group. With their best performance in the Southgate parade, the cavs took first place. Also performing at rallies and half time shows, the band proved that hard work and determination was worth all the effort.

Victorious Marks For All to Remember

November 1st was a day that held excitement and anticipation as we started off our Homecoming festivities with a pep rally. The rally stirred up the spirit of all the classes who were rooting on the football team and Homecoming nominees. The evening progressed into a very memorable one as the football team proudly went on to continue with its 4th straight win by defeating Chino High 39 to 6. During the halftime came the traditional display of floats by all four classes competing with their pompous displays of originality being followed by the Homecoming Court in their train of classy Corvettes. Later came the long awaited moment to which Jackie Marsh was proudly crowned by last year's Homecoming Queen Clabeth Reboja. Adding a finishing touch to the Homecoming festivities was the dance on Saturday November 2nd held at the Ontario Civic Center. The mood was set by the theme, "Tonight It's You" and the couples danced to the music provided by the popular D.J. "Poorman." Both nights were trademarks of success due to all of the hours of practice and hard work by the football team, halftime organizers, and dance committees.

Student Council . . . Behind the Scene

Many students thought of student council to be nothing but fun and games, but as an officer or club representative came many responsibilities not easily visible by the student body. St. Council just wasn't a class during second period. A great deal of time and energy was put forth, before and after school. Even during the summer students met once a week. Long before the school year began the members of Student Council took a trip to Lake Arrowhead. They were there for several days. The purpose of the trip was for for the students to get better acquainted and to plan Welcome Week, and freshman orientation. Council members learned to grow with the changes that occurred throughout the year. They were responsible for the planning, coordinating, and sponsoring of activities and extra curricular events.

"Turning the kids on," was one major council goal. They planned welcome week, homecoming, blood drives, class competitions, and food fair days. One of the most popular events was the Lip-Sync contest. Many groups competed for cash prizes. The top three groups went on to compete against other schools and even became a special on Group W Cable T.V.

It wasn't always easy to keep smiling while Student Council debated the on going activities on campus. There were always problems that had to be overcome, some more controversial then others. Unfortunately, at times there were many hurt feelings when students often expressed their personal opinions, but it was all for the common good.

The council was also in charge of the student store. Money made from the sales went back into the school for various uses. A new project that worked well was the student bulletin, announced on the P.A. each morning during second period. A committee of show biz-oriented students read the daily bulletin in a game show format like the "Dating Game" or "Ken and Bob" shows and gave a commercial lift to the schools daily rountine.

The task of governing a student body as complex as Montclair is never easy. The council, filled with new inexperienced members, showed, in the end, the Cavalier trademark of "team work" by providing positive leadership despite minor problems.

What would student government be like without the class senates? It wouldn't be too democratic that's for sure. The class senates involved as many members of each class as possible to participate in the organization of student government activities, even if they were not enrolled in the student government class.

Every student was welcome to attend the meetings of his or her respective class. This enabled the person to help in the organization and decision making of the class activity. So, whether it was selling Turkey or Christmas grams with the freshman class, or planning a trip to Mazatlan with the senior class, involvement in the senates taught a person a lesson in decision making by deciding the best way to spend their money and the easier way to raise it.

First Time Fright

Halloween attracted more than just school spirit. Why? If you would have seen the hours of work that were put into the Haunted Castle, you would never need to ask why. Members of the Montclair student body and faculty spent most of their time in getting the fund raising production done in time before Halloween.

The auditorium was transformed into a ghostly, creaking, screechy castle; A parade of ghoulish creatures gave tours to anyone brave enough to enter its doors.

The looks on the faces of the littlest trick-or-treaters exiting the castle, testified to the terrifying success of this 1st annual Halloween event. The financial success of this venture held hopes of its return next year.

The main purpose was to raise money for helping the survivors of the Mexico City quakes. Their purpose was accomplished, raising over $1,000 dollars. The remainder of the profits were then split between the clubs and class. This "Hallows Eve" special was not only fun and a thrill for the entire community but it also helped people in need.

A New Spirit

Rallies at MHS were quite different from previous years. Each class showed better than ever spirit of class competitions. The class of '89 proved it to be true. Their class had more enthusiasm than previous freshman classes. Underclassmen were more determined than ever to show their spirit. The Viberations of 2,000 cheering Cavaliers echoed off the gym walls at every gathering.

Rally entertainment included such exciting events as class competition, relays, riding piggy-back, and roping Brahmas. Other Cavalier entertainment included, cheerleaders, drill team, and the introduction of the fall, winter, and spring sports and many more extras. Because the rally schedule had been changed from the usual class rally to an extended brunch, all of this entertainment was accommodated. The year saw a definite rise in Cavalier spirit.

The Spirited Cavs

Who's responsible for the rise in Cavalier spirit? A big contribution was made by the pep squad. As Freshman orientation began, pep squad was there to welcome the new Cavaliers and help them gain MHS spirit. During the summer, pep squad put many hours into "Hell Week" giving the football players the will to practice and the strive for perfection. By attending all sports, pep squad boosted spirit and gave each team the willpower to push to the top. Not only did athletes benefit from pep squad, but the student body as well. With help from student council, these rambunctious Cavaliers helped to bring spirit back to MHS. All around campus, spirit was being left by each pep squad member, making Montclair full of pride and spirit.

Activities could not be possible without the direction of advisors. A vital part of pep squad was the very helpful **Mrs. Yearout.** With her third year of pep squad advisor, she continued making pep squad the very best it could be. Although it was not always apparent that Mrs. Yearout was a great contribution to the rising effort in school spirit and pride, she was the very inspiration of the pep squad.

Dedication and hard work was no easy task for the Songleaders. Each one, with thir unique qualities, routines of excellence and originality. The lack of some members from the squad pushed them to work that much more. Sweat and practice proved all worthwhile. Their captivating displays filled each Cavalier with mounds of enthusiasm. Each routine put forth the spirit that Cavaliers are proud of.

Varsity cheer, with their enormous energy, brought out the spirit hidden in each Cavalier. As rallies began, the crowds were timid, but in came Varsity cheer to jazz up the audience. Classes roared and screamed the Cavalier spirit.

As J.V. cheer approached, the mighty Cavaliers cheered with them. With tremendous time and effort, each individual put forth pride and a superior performance.

Another proud display of excellence, was that of the Flaggies. An enormous ability of coordination and self-esteem was needed. The meaning "I can" became evident in the squad's performance and appearance. Each person represented the pride, energy, and motivation that existed in every true Cavalier.

Then, of course, was Montclair's most sincere Mascot, **Kristen Myers.** As Kristen promoted school spirit at football games and rallies, other Cavaliers joined her in the shout for MHS spirit and pride. She portrayed what is in every true Cavalier. Kristen represented pride, talent, ambition, and enthusiasm.

What kept all of pep squad going? The dynamic pep commissioner, **Laura Shipley.** Laura contributed to pep squad more than imaginable, and livened up everyone's day. She displayed a lot of different talents. Having a 2.5 grade point average was a must. Planning and organizing rallies took creative imagination. And Laura definitely fulfilled these obligations. She not only fulfilled these responsibilities, but she managed to create a sense of spirit around other Cavaliers. With her bubbly smile, she gave all the squads the will to continue and strive for perfection.

Marching Cavalettes

The M.H.S. Drill Team was a group of girls whose purpose was to promote school spirit by developing skills in marching and dance routines. The team took part in school rallies and also food fairs.

Drill Team organized and sponsored the Christmas Dance. This, along with many fund raisers helped the team toward traveling expences for transportation to various performances.

Drill Team performed for M.H.S. football's halftimes and also several parades. Their victories in parades were: Cudahy, third place; Southgate Christmas Parade, third place; and first place in Yucaipa Christmas Parade, a title they retained from the previous year. The team performed at Disneyland, L.A. County Fair, and Dodger Stadium.

The girls enjoyed having **Marilyn Maurer** as their advisor, because of her positive encouragement and dependability.

Guarding Our Colors

Leading the Way

Who is qualified to introduce the M.H.S. Marching Band? The Banners, of course! This auxiliary unit led the band in a grand performance by proudly displaying the Montclair name. These girls practiced very hard all summer and during the first semester of school. The pride that these Cavaliers felt helped them to display M-O-N-T-C-L-A-I-R evenly and correctly.

Leading off the fine performance of the year was **Tammy Reed.** She was the band's solo majorette. Tammy took first place in the Yucaipa Christmas Parade. Trying to keep in beat with the music and keeping an eye on her twirling baton was a job that Tammy did very well.

The Color Guard Team was a group of girls that twirled their flags proudly to represent the school's spirit. This unit of the marching band showed great style in their performance and added beauty to the M.H.S. band.

Notes to Remember

Notes that were remembered, came from listening to the music of the jazzband. This group was made up of eighteen members. The purpose of the group was to learn how to appreciate jazz, and learn about the era of the jazzbands. They were all different in their talents, but all shared a love for music. When these musical Cavaliers got together and performed, their sound was unbelievable. They competed against many schools and took part in five festivals. They practiced everyday and their hard work paid off as they were heavily applauded at their last performance. They all had a feeling of great achievement. This group will never be forgotten.

Voices Remain as Time Goes by

Chamber choir was one of the two newly founded choirs. This group was organized for people who wanted to learn more about their voice. It was a training class for a person who wanted to pursue a carreer in music. They reached their notes and still went higher. The jazz choir was a group of the best singers of the school. Being a zero period class meant each member had to get to school an hour earlier, which means these members must have been dedicated to their work. They performed everywhere from Lake Perris to San Francisco. They were invited to sing at Ventura Marina Resort, Disneyland, Cal Academy of Science (in San Francisco) in many which only twenty members attended will always be remember.

Food Fair Fares Fair

"Hurry!" Let's get in line for pizza before it runs out!" "Where is the rootbeer float stand?" "Do you have change for a five dollar bill?" Those were some phrases one might have heard during one of the four food fairs that were held throughout the year. Food fair wasn't always the best fund raiser, but it did produce a lot of fun and school spirit. This activity was enjoyed by many of the clubs and classes on campus. They had the opportunity to sell a variety of food, the most desired foods being pizza, taquitos and chili dogs. The food fairs offered a break in the daily routine of the cafeteria and gave Cavaliers the chance to try new and different types of food, prepared by fellow students (or by their parents!) Overall Food Fair was a great chance to eat, socialize and have fun!

Under Disguise

Who in their right mind would have wanted to go see "The Worst High School Play In The World?!" Well, actually it wasn't the worst play, or for that matter a bad play at all. It was simply the title. This drama was fairly new. It was written by William Gleason in 1983. It showed much success in the past and looked as if it would continue to do so in the future.

When Mr. Tackett was asked why he picked this play, he said it would be a "fun" play to do. It had a large cast and good parts for both males and females. The play also offered the cast an opportunity to display their creative talents in both comedy and drama. The play was performed and much enjoyed by all on March 6th, 7th, and 8th in the school auditorium.

4. "What did I do wrong?" **Brandon Burky** asks **Mark Harris** and **David Hilldebrand?**

Presenting a Christmas to Remember

As the semi-formally dressed couples filtered into the MHS cafeteria, one factor was definitely evident. The students were ready to dance! As the couples approached the dance floor, the festivities began. Even these actions were made with a touch of anxious curiosity.

Everyone was obviously concerned to find out who their 1985-86 Christmas Queen would be. The most anxious of our MHS crowd were the five senior girls on court. These princessess; **Liz Alba, Melanie Maksin, Karimeh Trad, Leah Vaughn,** and **Sendee Zolman** were each to open a gift-wrapped crown. As arranged by **Mr. Radcliff,** the to-be queen would open the box with the largest crown.

All at once, the tension mounted and then relaxed. At this time, **Melanie Maksin** emerged from the Christmas tree area with the largest crown and a cheer from her MHS classmates.

Melanie and her four princessess then posed for a group shot with their crowns and bouquets. This was then followed by a dance dedicated to the girls and their escorts.

1. At the moment of crowning, **Melanie Maksin** was obviously filled with excitement.
2. "Pick a present," challenges **Mr. Radcliff.**

A Reason for Romance

With gently flashing lights and music, the atmosphere was set for the Sweetheart's Dance. It was held on February 8, 1986 at M.H.S. in the main gym. Couples danced together enjoying one of the many activities at M.H.S.

As the dance progressed, hearts pulsated for the awaiting crowning of the Valentine's court. The time came to reveal the new Hero and Sweetheart court. Who would be the Hero and Sweetheart? As candidates **Mariann Russell, Teri-Lynn Perry, Shannon Stuver, Jody Merritt,** and **Pamela Ciurzak** stood side by side, former queen **Laura Shipley** prepared to crown one of the five anxious princesses. One by one, each princess was crowned with the queen being last. Who is it? Then as Cavaliers applauded and cheered, **Jody Merritt** was crowned the new Valentine's Sweetheart.

Following the announcement of Sweetheart court was the very captivating Hero court. A playful **Branden Barber,** former Hero, pointed out the new hero. Up and down he sauntered causing a feeling of curiosity throughout the gym. Was it **Pat Warner, Gary Irvin, Paul Apana,** or **Jon Park?** With only two court members left, Branden very patiently chose the new Hero. **Jon Park,** wish astonishment and joy, smiled graciously accepting his septer.

With a well-known Cavalier spirit, the dance continued. Laughter and romance accompanied the sounds of D.J. **John Brinkman** and **Andre Swan.** Leaving this night to remember, and an evening for romance.

SENIORS

A Mark in Time

Time and circumstance always seem to challenge the heart and mind of man. They cause us to reach deep inside ourselves to effect changes. They revive our awareness of world struggles, traumas and discoveries. They raise the consciousness of man's inhumanity to man with the help of organizations such as Farm Aid, to help farmers, Live Aid, to help put an end to starvation, an AIDS fund raising dinner, along with a song called Friends, sung by **Stevie Wonder, Elton John, Gladys Knight** and **Dion Warwick,** written to raise money to help in the cure of the AIDS disease. This dinner for AIDS was brought about by the tragic death of **Rock Hudson.** The news of his illness spread and researchers and patients alike were hopeful that his plight and his decision to reveal it, might finally dramatize the threat of the growing epidemic and bring calls for a more effective medical counterattack. Help, such as these, did just that.

On the other hand, tragedies around the world held that same unity of man helping man. People of all races, ages and sex, pitched in to help in the desperate struggle to find survivors in the Mexican earthquake, measured at 7.8 on the Richter Scale, and the Volcanic Eruption in Columbia, killing over 20,000 people. The hijacking of the Achille Lauro and the Hostages in Lebanon also demonstrated growing terrorism. A U.S. passenger, Leon Klinghoffer, 69, was killed by four terrorists aboard the Achille Lauro cruise-liner. Plane crashes, such as the DC8 Charter carrying U.S. military troops (101st Airborne) on its way home for Christmas from the Middle East, marked air transportation's worst year in history. Also, we will always remember the air fatality of singing star **Ricky Nelson,** who perished with other members of his band.

Other international affairs consisted of the Soviet KGB agent, **Vitaly Yurchenko,** who, after claiming that he wanted to become an American citizen, returned to the Soviet Union, the Geneva Summit between **Gorbechev** and President **Reagan,** the Bitburg Summit where President **Reagan** visited the Bergen-Belsen concentration camp, a powerful memorial to the madness

of the Holocaust. Finally, who could forget, the visit from the Royal Family?

In the U.S., watermelon sprayed with harmful chemicals, tainted cheese and cyanide tampered Tylenol capsules, presented a health hazard, which, in the case of Tylenol, caused the makers to permanently remove capsules from the shelves. The makers of Coca-Cola also had a controversy with their new product, New Coke, thus causing them to convert back to the original formula beverage, now called Classic Coke.

On the financial scene, General Electric bought RCA, General Motor bought Hughes Aircraft, **Philip Morris** bought General Foods, Turner Broadcasting bought MGM/UA and Union Carbide bought GAF.

Of course, sports fanatics will recall the Kansas City Royals winning the World Series, the Lakers capturing the World Championship and the Chicago Bears' defeat over the New England Patriots in the Super Bowl. Player/Manager, **Pete Rose** also made the headlines for breaking the long standing record of **Ty Cobb's.**

New discoveries, on the positive side, such as the Penn. State Heart, which sustains life until a human heart can be found, the heart transplant from infant to infant, Incycloveris, a break through in Cancer and the first woman to receive an artificial heart, all were marks in time.

The most devastating event that occurred for the year was the explosion of the Space Shuttle Challenger. Its suddenness, after 18 years of success in man's space flight, shocked many around the world, as they watched eagerly for the first teacher aboard the shuttle to launch off. After just 73 seconds, happiness turned to sorrow, and millions mourned the death of the 7 astronauts. Although this tragic incident marked the sorrow felt by Americans, people around the world responded with a common sadness at the loss of seven of such uncommon valor. We all held a dream, that of adventure to seek the unknown, together. Maybe we still do.

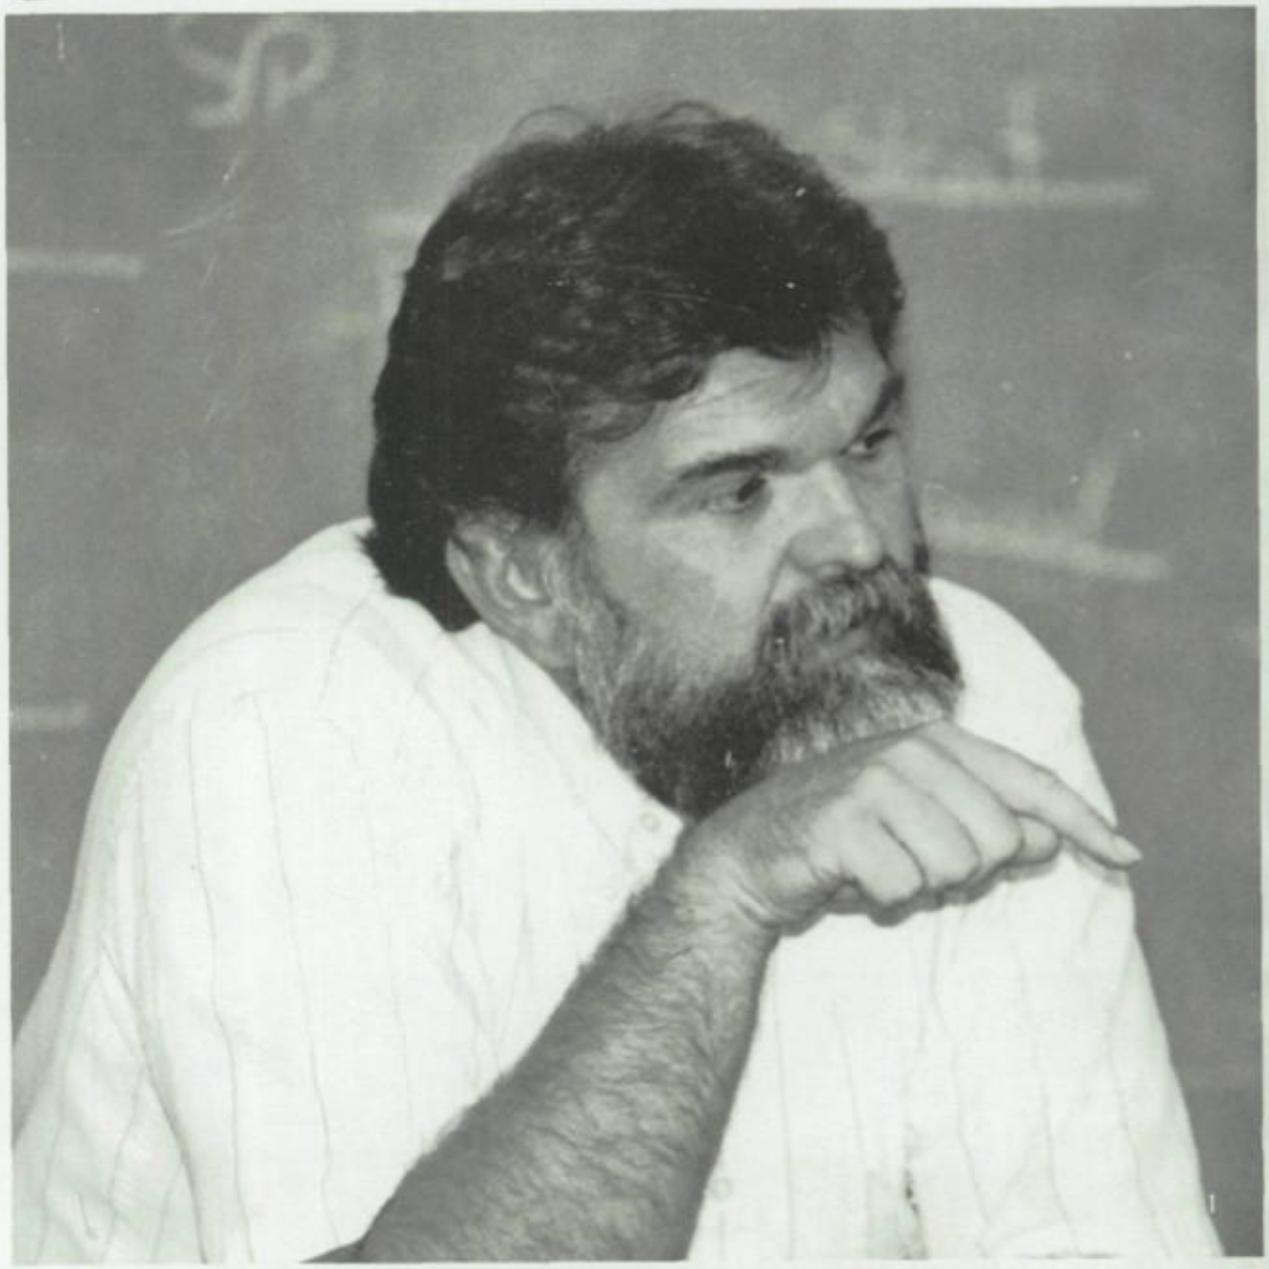
Competing for Knowledge

For the past three years, a few select students participated in a somewhat different kind of competition. It was not a physical or athletic competition, it was a competition based solely on the participants knowledge of certain academic categories — the Academic Decathlon.

The Decathlon itself consisted of six multiple choice tests in the areas of Math, Science, Social Studies, Fine Arts, Economics, Language, and Literature. From there the participants went on to make two speeches, one prepared and one impromptu (both speeches count as one test), write one essay, and then participants proceded on to what is called the Super Quiz, which is a fast paced recognition test.

The team consisted of six members. Two Honor participants, who both have an "A" average, two Scholastic participants, who both have a "B" average, and two Varsity participants, who have a "C" average or lower, and then three alternates, who take the place of a missing competitor. The team consisted of **Melissa Gemeniano, Lauren Heyns, Weni Chang, Les Liu, Heidi Larson, Christia Williams, Trisch Deehring** (alternate), **Kara Lakkees** (alternate), and **James Forest** (alternate).

Overall, the team did well. They came out with five award winners, who were: **Les Liu, Lauren Heyns, Weni Chang, Melissa Geminiano,** and **Kara Lakkees.** This team and winners just go to show you that hard work and studying eventually do pay off.



1. Instructing his Humanities class in preparation for the Academic Decathlon, **Mr. Kremer** points out the importance of studying.
2. **Les Liu** examines a math problem carefully before attempting to solve it.

1. Unable to contain his joy, **Lauren Heyns** reacts to one of his test scores.
2. Anticipating a high score on her test **Missy Gemeniano** works intently making sure she gets every problem corect.
3. Like all the other competitors, **Heidi Larson** strives to achieve her highest potential.

Thanx Chris for always listening to me and thanx Jason for always knowing how to lift my spirits. Thanx Shane for being such a great friend and for always being there for me when I'm such a wimp. A special thanx to Paul and Matt for showing me what the map of California looks like. Clarion!!! What a wild bunch of people. Through all our ups and downs how we ever manage to get a paper out I'll never know. I leave my page the "front page" to capable, intelligent clown who can keep the class fun. Thanx Jen, Lauren, Cheri, Kara, Matt, Les, Keisha, Julie, Kyong, and Sean, Randy, Becky and Fred for making 6th such a pleasure and a class I look forward to going to.

Debbie Weiseman — I wouldn't have made it through this year if it wasn't for Marie, Sheryl, and Jennifer. You are the bestest friends that anyone could ever have. Hey, thanks a lot for all the support that you gave me. Marie, you are my best friend and I'll always love you for everything you've done for me. I know that we will be parting soon, but I'll never forget the fun times that we had these past years at MHS. Mary remember the balloons at Disneyland and Sizzler salad bar and New Year's Eve at Pauls' house and forget Hickory Farms. They must really know us by now. God I don't think I want to go back there for a while. Remember your 19th birthday party in the pouring down rain. When hardley anyone showed up and you said that thousands of people came. Ha. Well this year isn't over yet we still get Jennifer's party at my house and my 18th birthday party at Chip 'N' Dales. Jack I will always love you for turning my life around for the better. I'm glad that I am graduating for this school, but it's sad to be leaving all my friends. But hopefully we will be seeing each other in the near future. I love ya all for just being you, Marie, Sheryl, and Jennifer.

Sendee Zelman — "Nuttie, Nettie," so far we made it through all of our troubles. Never forget any of our Jammin parties we went to. Esp. the one w/all the Blood! (Ha Ha!) Oh, all the F.B. games, where's #72? Here mousie, mousie. You make the cutest piggy. Pamela; I know we hardly ever talk, but when we do its important. Never forget our B-day. Valentine's Dance. That was a laugh and a half. Slow down Eric. To Leah and Teresa: Did you save your milk money? Sorry about S.F., Leah, Open the door or I'll, well just open the door. At least I don't stand like this. (Ha!) Don't forget the O.J. As for Tesa, thanx for that test drive in your car. What I have to pay for it OH . . .!! Remember waking up people from D.T. tapping on the window. Both of you are very special to me, stay that way. Luv ya both . . . Bobby; you were and still are a very special person in my life. But all in all the 8 months we spent together I think made us love each other more after we broke up. I will never forget the "Metro Center!!!" Thanx!!! Or the times we walked home from my house late at night. Sorry about all the bruises. When you had to wear a collar for 2 weeks. I'll never forget you. I love you Robert Edward Gonzalez! 100% Sendee's. Cheryl Babe, our times together were countless. I can't seem to recall any bad times. Oh! except for the times we would have to leave Pete and David's House in a hurry. How about Wan and Dayne (heeee) and all the times we would sit by the phone and wait. I thought we would of learned our lesson. Don't forget about San Fran. you did what when! Oh, my God so I did. That was an experience to remember. All the times when we would party at Petel Meats' House. Going to the rock, the slide, the tower. Sitting on the bigest rock with Esie. What about Pete, bet you can't hit me, betcha I can. No you can't!! Smack . . .!!! I loved it. Cruising on the bikes, Turnbo, Phoenix, passing things from car to bike are all the things I had fun doing. But they wouldn't of been fun without you, Cher Bear. You're one of the best. Cheryl Lynn Lichty you are and always will be my best friend I luv you. Vivvy and Laura — thanx for all the rad times at Nofre. Or should I thank George. Ahhh, Jelly!!! I hope your dreams and fantasies are fulfilled in the future. Without "Melted R-eles!!" Love you both dearly. To Pep Squad — Thank you for being there when I needed you. You all helped me live a dream. Dancing. I'll be back to visit next year. Last but not least, my family. People who shared my happiness and my sorrow. Each and everyone of you deserves the best and I hope you get it. You have put up with me for 17 years now and I am proud to say, You did a darn good job. You are always in my heart and in my mind. I love you all very much. Mom, Dad, (see I did it.) Thank you MHS. I'll never forget you!!! I'm (Out A'Here) Sincerely and Devotedly yours, Sendee S. Zelman.

Be Good
I Love U,

Nobody's Perfect

I'm sure, what kind of fool would lock their keys in the car?" "Hey you, Third row, second seat back, wake up and pay attention!!" "I suppose you don't have your homework either, do you?" I'm sure at sometime while at MHS you had heard questions like these, or at least slight variations of them coming from teachers, parents, and maybe even a best friend. But hey, these things happen every once in a while. It's just that they happened to you.

But those weren't the only experiences you might have come across; some were good, while others might not have been all that great. For instance, you might have mustered enough courage to show your face at a football game, or rally, you might have even got an urge to read your local or school newspaper. What about the other things? Like when you decided to spend a Friday night at home alone, and not out with the gang and Pig Out, totally breaking every rule of your diet you just started. Or maybe something different. For instance, when you found yourself writing your own absence excuse for when you went to the beach two days back on student declared, Senior ditch day.

That's still not all that could have happened. The list goes on and on. If one of those things ever do happen, just remember, you're only human, and you're not the only one that could have been overcome by these common urges and happenings. They break the monotony of your everyday life. They're a good change . . . every **Now And Then.**

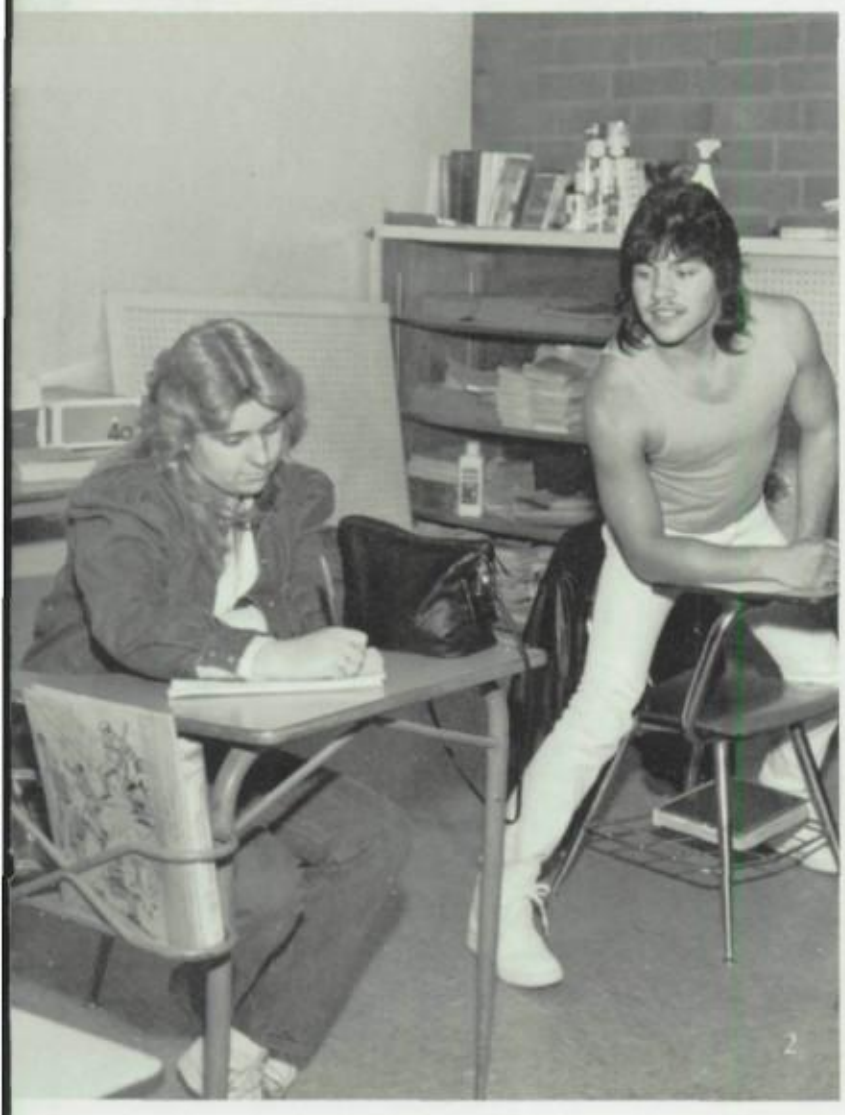
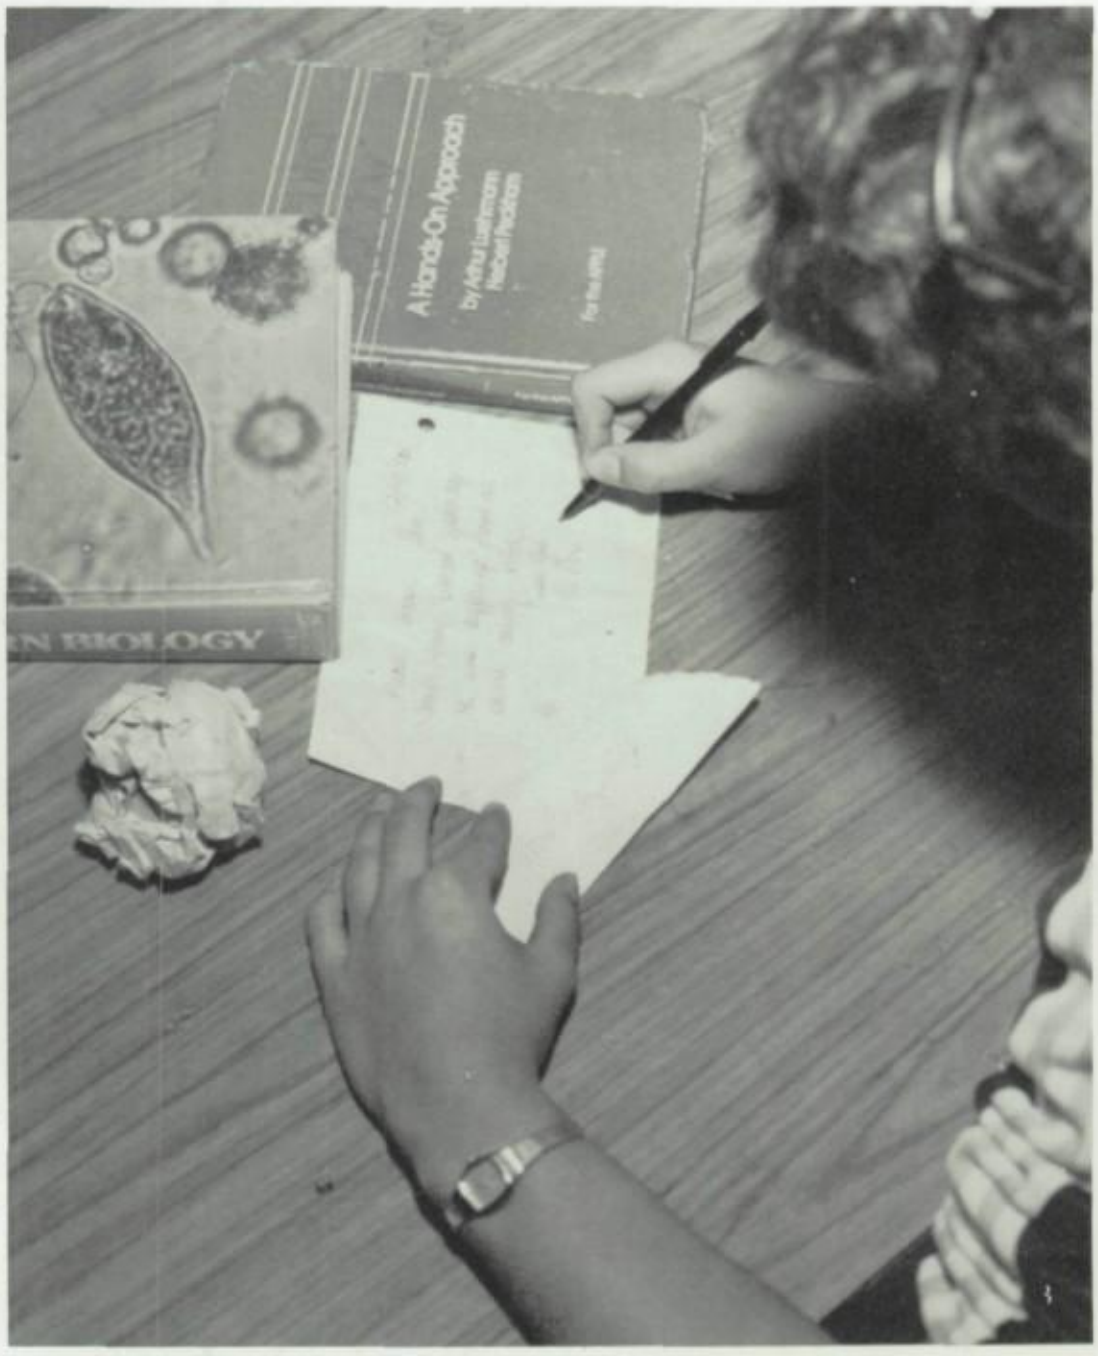
2. In desperation for a decent grade on his final exam, **Joe Perales** tries some very strategic cheating moves, with the help of neighbor, **Karen Flaig.**
3. Hoping to clear themselves, a student tries to forge a note for being absent a while back.





Unmistakable Characters

Throughout the campus many teachers showed their own individual characteristics. These were the people who helped form such a proud school. Each had a unique trait that all Cavaliers will remember.

One teacher that seemed to be always on top of things was **Mr. Hart.** Always so well organized, and calm, he never shouted. With his various kinds of ties, from hearts to sheep to Christmas trees, Mr. Hart always had a tie for the proper occasion.

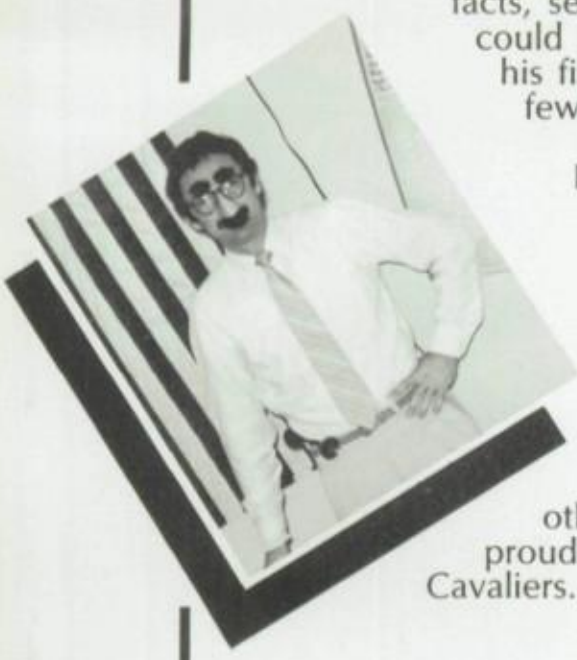
Then there was **Mr. Mittino,** known to many as a somewhat look-a-like to Groucho Marx. With his horn to keep student's awake, and his funny glasses to make students stay alert, Mr. Mittino was always a pleasure to have. As the big test day came, he was prepared, with his white chocolate chip cookies or candies. He always set the students at ease.

Who could forget **Mr. Montoya** with his famous surf stories to highlight the day. With his special qualities of kindness and good humor, he made people feel good. He was not only a great teacher and coach, but a great friend, too.

Then there was **Mrs. Pentz.** Always with a dazzling smile to match her outfits, she was constantly prepared to put a smile on your face. With her long, brown hair, great smile, and perfect attire. Mrs. Pentz showed the true Cavalier pride.

What would chemistry be without **Mr. Nauman?** Always dedicated to school, he even came when he was sick. You could always spot Mr. Nauman with his Christian Fish symbol worn around his neck. There was never a day where he would be without it.

What a teacher is best known for "Today's Fact?" **Mr. Hite** with his unusual, bizarre facts, set a different atmosphere. You could always see him counting with his fingers during lectures, letting a few puns and jokes slip in.



Finally, the infamous **Mr. Remes.** What senior could forget first day of Civics. Preparing "to die" and finding they **would** live, hopefully.

These teachers, along with other staff members, made MHS proud to be called the Mighty Cavaliers.

A Legacy That Will Never Die

Tradition played a large part in many high schools, and Montclair was no exception. One Cavalier tradition that has never died is that of a Senior gift to the school. With every graduating class, something new was added to the campus. These gifts were all similar in that everyone benifited from their presence, and each individual gift left behind a trademark of that Senior class.

Deciding on the gift was a responsibility taken on by the entire Senior class, led by the president. The decision was usually based on what the seniors felt would give the school something extra to improve it. No matter what the gift, it was always appreciated by the student body and faculty. Some of the contributions which helped Cavaliers included the clock, which helps students get to class on time, the marquee, for informing those interested in future events, and the flagpole, to display the victory flag after successful games. Some gifts were left behind to add to the school's landmarks. These include the plaque at the main entrance, the pit, and of course, the words, "Montclair Cavaliers" overlooking the quad area.

These gifts have helped to make M.H.S. what it is, and also established familiar sights for Cavaliers to identify with. By adding these permanent additions to the campus, Senior classes gave M.H.S. a sense of individuality.

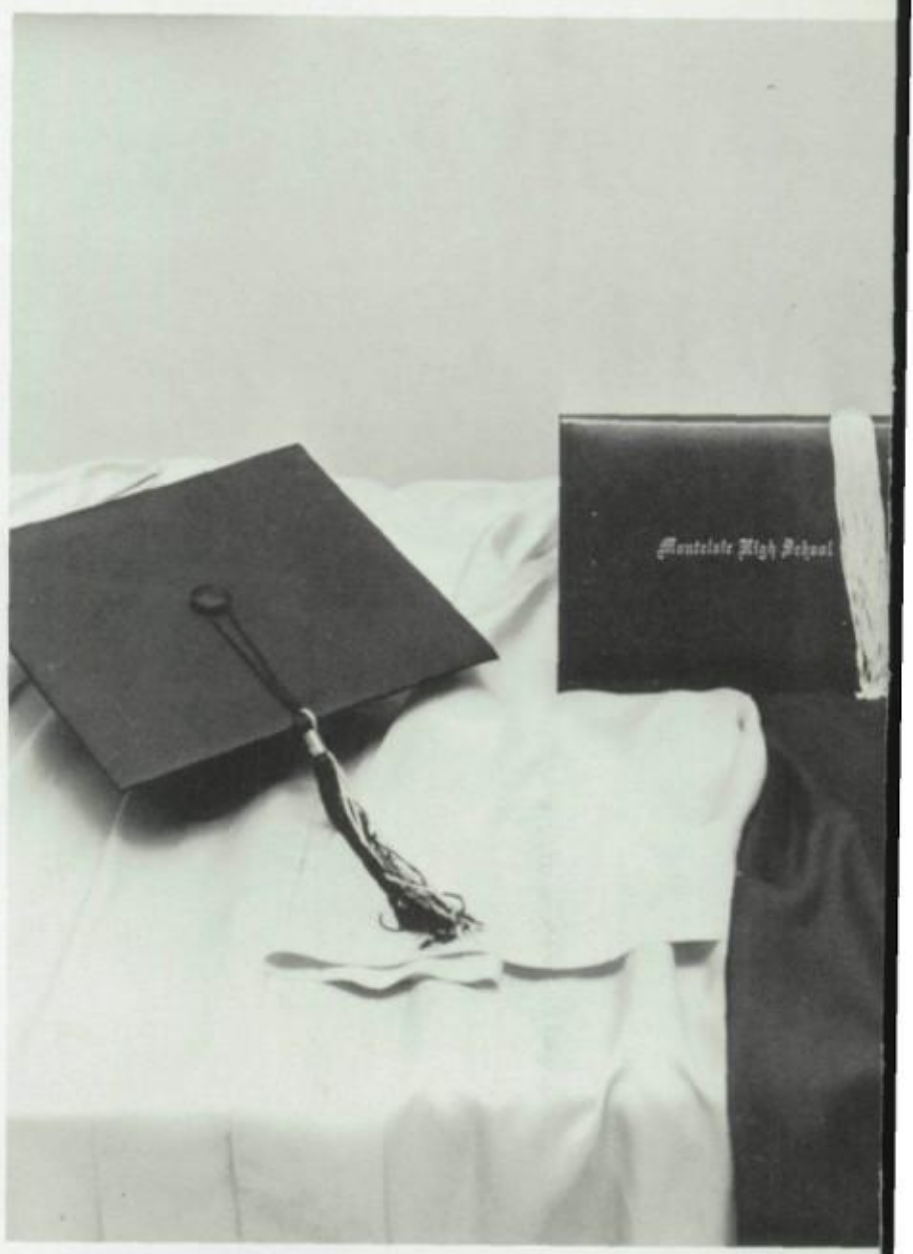
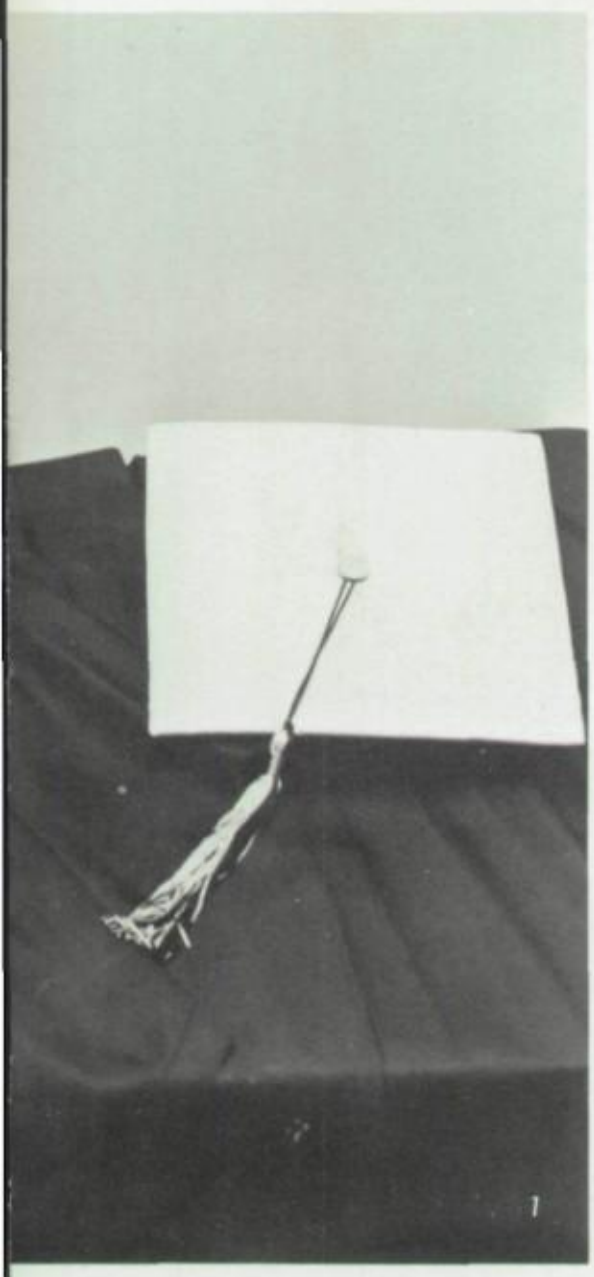
Graduates Mark a New Beginning

Throughout life's experiences came times of growth, independence and responsibility both of the body and mind. As graduation approached, we reflected on the past when we attended elementary school where we had one class, one teacher and one goal: to survive until recess. As we passed this stage of life, we came to the transformation of changing from a kid to being a teenager in junior high where we took on numerous classes, teachers and one more goal: to make it to high school. It was then that we learned of independence and responsibility. We were expected to achieve our highest potentials both academically and athletically. With the help of teachers, friends, and parents we soon developed into mature young adults ready to make that final step, a step which was implanted in our minds for four years and reminded with every arrival of report cards.

That step was not easy to take. Being handed a diploma looked easy, but the weight and power behind it brought both joys and burdens. The day of graduation sparked the beginning and true meaning of life as an adult. After receiving our diplomas we said our goodbyes, shared our hopes and dreams for the future and took on one more goal in life: to become the best we could become.



1. The sight of the diplomas will definitely be enjoyed in the minds of the Senior Cavaliers forever.
2. A graduation at Montclair High would not be complete without a farewell sign from a graduate.
3. Soon enough receiving a diploma will become a faint memory in the back of our minds, but the knowledge that we gained will remain with us throughout a lifetime.
4. What could be a better place to express the enjoyment of graduating than around the M.H.S. victory flag.



Montclair, we'll hold you always dear
as through your doors we pass.
With heads held high and memories dear
our futures unsurpassed.
Oh, guide us well and keep our faith
forever held high,
as with our team the Cavaliers
that spirit do or die.

Darcy you are so seedy get it!! Well, you better feel priveledged that I'm writing in your book, because I don't usually associate with runaways hee hee!! Not really Darcy, see I'm writing crooked! Well Miss D.M. I have so much to say to you! You are an absolute doll, how one gal can get so pretty I'll never know I wonder who looks like who, If you look like Jody or she looks like you! heehee!! Darcy you have been a really great friend, you've always been there for me and I for you, I love you so much, you have given me memories I'll never forget and always treasure! Remember, when you get in a fight and your lip bleeds, hide it, But hey, you kicked ass once ya can do it again. Don't let anyone hurt you anymore, if they do tell me babe because you deserve nothing but happiness and if I'd have anything to say about it that's what you'll get! Are your Balloons dead? (from your B-Day) I'll never forget Wayne's, what a trip, I know how bad you wanted to go home, and Casey (I hope you see this) YOU Big Cry Baby!! DARCY,
Hey babe! Welp this is it were Finally Seniors, Yipeee! This year left us more memories to remember. Like the All the times we "parkeyed" out!! Don't forget the P.V.A. when I was standing outside trying to burn A Ticket off A "Hesian", what A Joke. Ya know The beginning of this year had to have been the best For us, cause that's when we were the closest. Those Summer DANCE places 7th Street & Grand Central (now called "New Image") & The Dudes, Jimmy, Harvey, Riban, Eric, Raymond, ect... Then when School started & it was Free At the "Driveins", thanks to Johnny Brown & L.B., Remember "This old man had A Bone" w/ Caseycornberry. Hell yes, that was bitchen & we were All Sobre. See that goes to Prove "True Friends" can have Fun w/out All the ~~Alkol~~ Alcohol. Although there was another time I'll always remember w/ the Alcohol over At Ginger's house when She had the Big Party And you, Jody, & I went there in the Truck. I had Alot of Fun playing Quarters w/ Jody, but I Sure wish you would have gotten out of the truck to come join us. O.K. Sure Dar bee go ~~Abo~~ Ahead & say "I was All "Ralphed" up!"; ha- Like I said those memories were great!!. DARCY, I just wanted to add one More thing. Remember when All the girls started coming down hard on you At Wayns house because of Casey? Well, I think you handled things great, you stuck up for yourself in your beliefs, you showed A strong heart & I really respected you for that. It took Alot & it hurt Alot to Fight for your rights. Maybe we All learned something through, we can't separate because someone doesn't Agree w/ our Actions, but to remain together And try to work things out And if things still don't work out w/ some certain people then their not a "true friend" to you, their only trying to please themselves & that's not good for you. Well BABE I may have made A Mistake trying to get you to talk to Sal but I meant no harm, I only wanted you guys to clear things up. I'm sorry for interfering. I Still ♥ U: Have A hip Summer! K.I.T (or else) 989-3029. I'll always wish you the "Best" in life.

DARCY,
